Pursuant to Item 21 of the Committee of the Whole Report 01-029, approved by Council on September 18, 2001, as amended by Item 9 of the Corporate Administration Committee Report 05-011, adopted by Council on June 29, 2005, the City is authorized to enter into agreements with abutting owners to permit, among other things, Encroachments onto City Property. The authority to approve and to release or discharge such agreements is delegated to the department responsible for the subject City Property.

The Public Works Department is responsible for, amongst other things, administration and care of City Property. This policy establishes the terms and conditions upon which Public Works may enter into agreements to permit certain Encroachments in, on, under or above City Property. Terms and conditions of the encroachment will be set out in the Encroachment Agreement or, where temporary in nature, a permit allowing temporary access.

4. Policy

The City does not encourage Encroachments on City Property. Applicants must satisfy to the City that the need for an encroachment is reasonable/feasible as no other alternative exists, the health and safety of the public is not in jeopardy, it is in the public’s best interest and is minor in nature.

When satisfied, the City may, at its discretion, enter into agreements with abutting property owners for Encroachments, such as a building, structure, or outdoor boulevard café located partially or wholly on City Property, subject to the criteria set out within this policy and accompanying procedures.

4.1 Guidelines for Considering Encroachments

The following guidelines are used to facilitate requests for Encroachment Agreements for various situations.
1. Property owners may submit a request for an encroachment in, on, under or above City property, for consideration by the City. Requests must be made in writing and accompanied by the appropriate fee set out in the Encroachment Procedure, as amended from time to time.

2. The City may enter into an Encroachment Agreement where it has been determined that the health and safety of the public is not in jeopardy, where it is in the public’s best interest and where it is minor in nature, including but not limited to such instances as:
   i) awnings
   ii) Landscaping
   iii) outdoor boulevard café
   iv) out swinging door
   v) paving to replace Landscaping to minimize maintenance purposes only and where no vehicular movement is permitted
   vi) porch or deck
   vii) sign (where not otherwise prohibited)
   viii) steps
   ix) Street Furniture (where not otherwise authorized)
   xi) wheelchair ramps and other accessibility features

3. The City generally will not enter into an Encroachment Agreement where it has been determined that the health and safety risk of the public is in jeopardy, where it is not in the public’s best interest, where it is not minor in nature or other non-permitted instances including but not limited to such instances as:
   i) Areaway
   ii) Fences
   iii) open spaces
   iv) public unassumed alleys
   v) Refreshment Vehicle
   vi) Temporary Encumbrances

4. Applicants will be advised in writing of the City’s decision. Requests for reconsideration of a decision may be submitted in writing to the General Manager of Public Works or his/her designate and must be received within 60 days of the original decision. Such requests shall include any additional information supporting the request for reconsideration.

Where concerns are identified by City staff or commenting agencies, those concerns may be presented to Public Works Committee for direction.
