Hi Kevin and Mary,

Environment Hamilton has released a new set of ten recommendations to the city to address climate change. We would like an opportunity to present them formally to Committee of the Whole – as we did with the first set. We would appreciate 15 minutes for the presentation if that can be arranged.

I presume the request to appear would be considered at the April 6 COW and perhaps then we could make the appearance at the May 11 COW. Please let me know.

Lynda Lukasik
