(g) **New Planning Act requirements**

Councillor Mitchell advised that the revised Planning Act is now in place, and that from now on, some of the Public Meetings will be under the new regulations, and some under the old ones. He explained that there are some very important changes under the new Act, which affect future rights of appeal. Under the new Act, unless a person speaks at the Public Meeting and/or sends the City a written comment, they are not entitled to appeal a decision to the OMB.

(h) **West Hamilton Innovation District Secondary Plan and Zoning By-law (CI-06-L) (PED07005) (Ward 1) (Item 6.1)**

A Public Meeting was held.

Council – February 14, 2007
Chair Mitchell advised the Meeting of the following requirements, pursuant to the new Planning Act;

a) If a person or public body does not make oral submissions at a public meeting or make written submissions to the Council of the City of Hamilton before the Official Plan Amendment is approved and/or Zoning By-law is passed, the person or public body is not entitled to appeal the decision of the Council of the City of Hamilton to the Ontario Municipal Board.

b) If a person or public body does not make oral submissions at a public meeting, or make written submissions to the Council of the City of Hamilton before the Zoning By-law is passed, the person or public body may not be added as a party to the hearing of an appeal before the Ontario Municipal Board unless, in the opinion of the Board, there are reasonable grounds to do so.

Committee was in receipt of an added communication from LaFarge respecting their property at 501 Main Street West.

Tim McCabe provided Committee with an overview of the area, which consists of 54 hectares, and includes the former Camco plant, and the subject applications area is one of the key employment areas in the City, and is expected to produce in the order of 1500 jobs and 1 million square feet of research and development, advanced manufacturing, a bio-sciences incubator, and associated commercial floor space.

Mr. McCabe noted that the proposed by-law includes the first new industrial zone in the staged comprehensive zoning by-law. He explained that the proposal represents significant partnerships between the Federal government, McMaster University and the City, and will transform a brownfield site into a research and development park.

Mr. McCabe addressed the importance of moving forward with the approval of the applications, since the Interim Control By-law for the area will expire on February 15, 2007. He also confirmed that the applications had been the subject of an extensive public consultation process, including the local property areas and McMaster University. He thanked City staff for their efforts.

Cam Thomas addressed Committee and gave an overview of the subject applications. He noted that while extensive studies had already taken place, additional work on various elements in the park is on-going. This work includes the consideration of the extension of Frid Street.

Mr. Thomas advised Committee of a minor change in Appendix B to the report, respecting map references.
Brenda Khes addressed Committee and explained that while a traffic study had indicated the need for the Frid Street extension, there was no recommendation yet on its alignment, elevation or configuration. This matter will be addressed through further studies, under the Environmental Assessment Act.

Committee asked staff a member of questions relating to the absence of Ward Councillor and the letter from LaFarge. In response, staff advised that the Ward Councillor had been involved throughout the process and was supportive of the proposal. Staff also explained the background to the LaFarge property and noted that Economid Development staff re continuing to work with LaFarge to identify possible alternative sites.

Zach Douglas, President of McMaster Innovation Park, addressed Committee is support of the proposal, with the aid of a powerpoint presentation. Copies of this presentation were provided to Committee.

Mr. Douglas gave an overview of the proposed Innovation Park, and noted the partnership between the University, who had paid $13.2 million for the land, the Province of Ontario who had contributed $10.0 million, the City of Hamilton, who had contributed $5.0 million, and the Federal Government who had agreed to re-locate the CANMET facility to the Park.

Mr. Douglas explained the McMaster Innovation Park (MIP) would anchor the West Hamilton Industrial District (WHID). He thanked the City for an excellent process in arriving at this stage and for the financial contribution but expressed McMaster’s concerns about the Frid Street extension.

He considered that while a local road would be consistent with MIP, a collector road acting as a truck route would be inconsistent.

In conclusion, Mr. Douglas advised of his support for the substance of the Official Plan Amendment but opposed the Frid Street extension, as currently proposed.

In response to questions from Councillor Whitehead, Mr. Douglas advised that the possible departure of the Senior Vice-President of Research from the University should not have an impact on the MIP, and that the existence of educational floor space was an essential element of research parks. Staff explained the percentage limitations of educational floor space.

In response to questions from Councillor Ferguson, Mr. Douglas replied that the relocation of CANMET to the MIP was still certain, but should they not come, while the pace of development would decrease, the MIP would adapt.

Councillor Bratina asked questions about assessment growth regarding the proposed use and for alternate uses.
George Liversidge addressed Committee and explained his company-owned 16-17 acres at Frid and Chatham. He noted he had been involved in and supported the process and thanked the City. Mr. Liversidge questioned the need for a “research park” as there was no demand, but explained he supported the proposal, provided his business could carry on. Mr. Liversidge supported the extension of Frid Street but not in the present configuration, which would split McMaster in two.

Mr. Liversidge thought that the proposals would need significant effort by the City, in order to be successful.

Chair Mitchell thanked the presenter.

Sergio Manchia, Planning and Engineering Initiatives Ltd., addressed Committee on behalf of Hamilton Metal Trading Corporation, who owns 14 acres within WHID, and Aberdeen (Hamilton) Holdings Inc., who owns 17 acres. Mr. Manchia supported the proposals in principle, noting the benefits of the use of brownfields but requested further land use flexibility. He proposed that the permitted uses include neighbourhood related independent retail, entertainment, self storage and cinemas. Mr. Manchia noted that these would benefit both McMaster and the adjacent Kirkendall Neighbourhood, and the uses proposed did not include “Big Boxes”.

Chair Mitchell thanked Mr. Manchia.

George Zajac, Planning and Engineering Initiatives, addressed Committee on behalf of a client at 606 Aberdeen. He noted that after the approval of the development applications, the use would become legal non-conforming but requested that flexibility be provided in the planning documents for future uses. Mr. Zajac also expressed concerns about the impact on his client at the proposed Frid Street extension.

Mr. Manchia added that the proposed planning document restrict the additional uses to the McMaster lands and asked for Committee’s direction.

Committee then discussed whether amendments could be made to the planning documents between now and Council on February 14, 2007, to address the concerns raised.

Mr. McCabe cautioned Committee that the changes suggested represented a change to major principles rather than minor adjustments, since retail for the adjoining neighbourhood is not part of the vision for the area.

He explained that there is major flexibility in uses in conjunction with the park uses.
David Blois, 150 Chatham, addressed Committee regarding the proposal. He explained that he owned a 47,000 square foot multi-tenanted building and thanked staff for their assistance with the by-law. Mr. Blois noted his concern that “call centre” is not one of the new permitted uses, and that he has a potential call centre tenant for his building.

Mr. McCabe advised that this use could be interpreted as an office use, and that he would follow this up with the speaker.

Committee directed that staff meet with the speakers to discuss the issues raised, and to come back with any amendments, in time for Council.

Councillor Whitehead asked questions regarding traffic matters, lot pattern and pedestrian needs.

Thomas Sullivan, one of the applicants, advised Committee that he supported the staff recommendation.

Norm Grey, 3 Falconridge, addressed Committee and echoed the concerns expressed by Councillor Whitehead. He presented a petition signed by 38 residents objection to the proposal. Mr. Grey explained that the lots would not conform with the existing homes, that the development would increase congestion, and that another northbound turning lane was needed. He distributed photos of the area to the Committee.

Al Potruff, 619 Rymal Road West, addressed Committee and expressed concerns with grading, noting that the site is presently at a lower elevation, and asked for clarification the type of development.

Staff advised that the grading would be addressed through the development process and that the houses would be single detached.
Gord Patton, 613 Rymal Road West, addressed Committee and asked about future development plans for Rymal, and whether there would be any commercial development or road widening.

Staff responded that while they are not aware of any commercial proposals, the land is in private ownership and so future applications could be submitted.

Theo Bezemer, 1227 Upper Paradise, also noted concerns about congestion, as traffic already gets backed up during school hours. He noted that the subdivision only has one road for access and egress, and five additional driveways will increase the problem of congestion.

There were no other speakers.

Committee discussed the matters raised by the speakers.

Councillor Whitehead explained that the sidewalk into the subdivision is not complete, forcing pedestrians to walk on the street. He suggested that the applicant and staff meet to resolve the issues raised by the residents.

On a Motion by Councillor Pearson, seconded by Councillor Ferguson, the matter was tabled to a later meeting of Committee, to allow the Ward Councillor to review the issues identified with all parties.

In response to questions from Councillor Ferguson, Mr. Thompson confirmed that the public notice for the applicant had been given in accordance with the requirements of the Planning Act.

Councillor Ferguson then expressed concerns regarding the current condition of the adjacent Southcote Woods site, respecting the removal of vegetation, the dust problems last year and unauthorized access to the site.

Tony Sergi explained that the Alaqua site cannot go ahead until the sanitary sewer is provided in Southcote Woods. He explained that there is no subdivision agreement for Southcote Woods, as yet, and that the delay is due to issues regarding the pumping station and the complexities of the site.

Committee directed staff to follow up on securing the site, cutting off unauthorized access and re-vegetating the site.
