RECOMMENDATIONS

a) That the process outlined in Report PED12151, “Application for Temporary Occupancy” be received;

b) That the City of Hamilton User Fees and Charges By-law be amended to add a fee of $750.00 for an Application for Temporary Occupancy.

EXECUTIVE SUMMARY

At the November 16, 2011 Open for Business Sub-Committee, Tim McCabe, General Manager, Planning and Economic Development Department, presented a draft Report regarding the issuance of Temporary Occupancy Permits for business uses. This permission would relate to the issuance of a licence where an application for rezoning
had been submitted or where the business use is expected to be permitted under the new Comprehensive Zoning By-law.

To stimulate new business that is anticipated to be permitted in the future zoning, this Report seeks to have Council endorse the process as previously approved with slight modifications respecting the organizational changes to the Department. To cover the staff costs to review, administer and grant approval of the application for Temporary Occupancy, an application fee of $750.00 is being proposed. This process would however, permit a business use to be licensed and not be required to undertake a $5,930.00 routine zoning application.

**HISTORICAL BACKGROUND** (Chronology of events)

To assist in permitting the uses until the new Comprehensive Zoning By-law comes into effect or where an application has been made to permit the use, Tim McCabe, General Manager, Planning and Economic Development Department, presented a draft Report regarding Temporary Use at the November 16, 2011 Open for Business Sub-Committee. The Committee approved the Report and it was ratified at Council on December 14, 2011.

As the Report approved was only a draft, the implementation of Committee’s decision needed to be completed and original direction is to be amended to reflect organizational staffing changes, such as Al Fletcher, now Acting Manager, Licensing and Permits, is no longer working on the Comprehensive Zoning By-law.

**RELEVANT CONSULTATION**

Building Services Division
Situations have arisen where uses have been identified that are not currently permitted under the existing Zoning By-laws but would be permitted either as part of a Council approval of development application or upon implementation of the new Comprehensive Zoning By-law. As the use is illegal, the by-law requires that enforcement must be undertaken.

While the timing of the new Comprehensive Zoning By-law is dependant on the New Urban Official Plan appeals being resolved, the direction of the new Official Plan is known and Commercial Zones have been drafted to implement the policy direction. In some cases, the applicant has applied for a rezoning or minor variance to permit the use or recognize the deficiency in the regulations. A routine rezoning application to add a use to a property is $5,930.00 (2012 Prices).

The Report presented by Tim McCabe provides direction to staff whereby staff can issue a business licence for the use subject to the following:

1. A Zoning Application has been filed to permit the proposed use;
2. Confirmation that the proposed use is expected to be permitted in the new Comprehensive Zoning By-law;
3. There are no policy conflicts with the City’s Official Plan;
4. No Building Permit for construction is required by Building Services; and,
5. The owner signs a waiver that if the use is not permitted within the new Comprehensive Zoning By-law or the rezoning application not approved, the business shall vacate the premises within three months.

To cover the staff costs to review, administer and grant approval of the application for Temporary Occupancy, an application fee of $750.00 is being proposed. As this is a new application process, the fee will be monitored over the first year of use and a determination will be made as to the appropriateness of the fee.

The application and waiver are attached as Appendix “A” for information.

Should Temporary Occupancy not be permitted, the property owners will only be able to continue or commence a business use when, depending on the situation, either the new

(a) That the General Manager of Planning and Economic Development Department be directed to complete an updating / review of the City’s Comprehensive Development Guidelines and Financial Policies at a cost of approximately $80,000;

(b) That the funding for this project come from the Administrative Studies Development Charge Reserves #110324 ($30,000), #110325 ($30,000) and Capital Account #8121155101 (User Fee Review - $20,000);

(c) That the General Manager of Planning and Economic Development Department be directed to conduct a Bi-Annual Comprehensive Development Guidelines and
Financial Policies Workshop, to inform, discuss, review, and relay issues and propose solutions to Development Guidelines and Financial Policy issues.

**EXECUTIVE SUMMARY**

The land development industry has expressed concerns about consolidating and updating the Engineering Guidelines and other technical and financial policies which are implemented and applied to various development applications. In order to improve this situation, staff recommends a Comprehensive Development Guidelines and Financial Policies Review be conducted to consolidate and update recent changes and clearly identify processes and procedures for the application of approved and publicly available development standards and guidelines. The cost of the Review would be approximately $80,000 and funded 75% from Development Charges and 25% from unspent monies from other related capital projects.

**HISTORICAL BACKGROUND** (Chronology of events)

A number of delegations to the Open for Business Sub-Committee from the land development industry have expressed concerns about the consistency with which the development engineering guidelines are being implemented and applied to various development applications.

Further, staff have determined that there are a number of other development processes, procedures, standards, guidelines and financial policies which need to be reviewed, updated or consolidated as part of a comprehensive review. This would include matters such as storm water management criteria, site plan guidelines, lot grading, financial policies, and other municipal best practices.
POLICY IMPLICATIONS

There are a number of development guidelines and financial policies which need to be updated and reviewed comprehensively. This will lead to streamlining of all processes, procedures and guidelines and provide more certainty to the development industry which has been its concern. In addition, the information will become more readily available and approved in a more formalized and public approach.

RELEVANT CONSULTATION

This report was reviewed in consultation with the development community including the Hamilton-Halton Home Builders Association (HHHBA). Corporate Services Department and other divisions within the Planning and Economic Development Department were also consulted.

ANALYSIS / RATIONALE FOR RECOMMENDATION

(include Performance Measurement/Benchmarking Data, if applicable)

Based on the concerns expressed through the Open for Business Sub-Committee and the numerous issues staff have compiled over the last few years regarding development guidelines and financial policies, it is appropriate to conduct a comprehensive review, update and consolidation of all development processes, procedures, standards, guidelines and financial policies. As identified in the above Financial Implications Section, the vast majority of the necessary funding for the review would be available from unspent monies in other related capital accounts.

At the same time, it would be important to incorporate a public consultation process as part of the Comprehensive Review. This should include a Technical Working Group including representatives from the HHHBA. In addition, staff propose a Bi-Annual Comprehensive Development Guidelines and Financial Policies Workshop, to inform, discuss, review, and relay issues and propose solutions. In the interim, any immediate changes or amendments to the Comprehensive Development Guidelines and Financial Policies would be published and distributed from time to time based on changes to legislative requirements, standards, or material specifications as well as other municipal policies and needs.

As such, staff would recommend that the General Manager of Planning and Economic Development Department be directed to complete a Comprehensive Development Guidelines and Financial Policies Review at a cost of approximately $80,000 to be referred to the 2013 Capital Budget for consideration.
