Re: Economic Stimulus Plan

(a) That staff be directed to prepare a local economic stimulus package that would consist of capital projects to be funded from the Hamilton Future Fund or another appropriate funding source that would not impact the 2009 tax levy (i.e. pending Federal Government economic stimulus package);

(b) That staff be directed to prepare evaluation criteria to guide Council decision-making in local economic stimulus spending that measures the number of local jobs that will be created, how funds circulate within the City of Hamilton community, and the social, economic and environmental benefits that such spending will create.
