GARNERING SUPPORT FOR HAMILTON MOUNTAIN TRANSIT

On February 27th, City Council will vote on an OITB proposal to expand service on the 44-Mountion line to include full evening and weekend service.
As 44-Mountain goes through six city wards representing 42% of Hamilton's population, service expansion on this route is essential for connecting students, seniors, and businesses to the City of Hamilton.
Please contact your city councillors in support of 44-Mountain expansion, sign the petition, and connect with Gaining Support for more information and updates.
