June 5, 2008

Hamilton City Centre
77 James Street North
Hamilton, ON  L8R 2K3

To the Mayor and Members of Council,

I am writing to you to join the growing opposition to continuing water fluoridation in the City of Hamilton.

Fluoridation is an expensive process, and poses considerable public health risks and ecological impacts. Many Canadian jurisdictions have already stopped this practice. At this fiscally challenging time, I encourage you to do the right thing and save money, reduce health risks and minimize impacts to our environment all in one stroke. Please stop the practice of water fluoridation in the City of Hamilton.

Many thanks for your time and consideration.

Sincerely yours,

Brian W. Baetz, PhD, P.Eng. FCSCE
Professor and Director
