April 5, 2006

Resolution No. 2006-220

Mayors/Wardens/Chairs and Members of Council:

Subject: 15 Litre Water Bottles: Impact on Blue Box Program

Your attention is drawn to the following recommendation that was approved by Regional Council at its meeting held Thursday, March 9, 2006:

Whereas the introduction of 15 litre polyethylene terephthalate (PET) water bottles to the municipal recycling system will add costs to the municipal tax base;

And whereas the 15 litre PET water bottles will increase recyclable material processing costs and reduce recycling storage capacity for residents;

And whereas a move away from the current deposit-return system that re-uses containers, to recycling of these bottles is a step down the 3 R’s hierarchy;

And whereas the current Blue Box Program Plan creates a disincentive for the packaging industry to increase the use of recyclable packaging;

Therefore be it resolved that the Ontario Minister of the Environment be requested to regulate the management of 15 litre PET water bottles by:

a) mandating a deposit-return system where consumers and the packaging industry bear the costs to manage the empty bottles, or

b) requiring the packaging industry to pay 100 per cent of the cost of managing the empty bottles in municipal waste and recycling systems;

And further, that the Minister of the Environment be requested to direct Stewardship Ontario, through Waste Diversion Ontario, to amend the Blue Box Program Plan to require the consumer packaging and printed paper industries to pay 50 per cent of the cost for municipalities to manage blue box waste materials in both the recycling and waste streams;

And further, that the Minister of the Environment be requested to require companies that wish to introduce new consumer packaging into the Ontario marketplace to consult with the Association of Municipalities of Ontario (AMO) to determine the impact of the packaging on municipal waste management systems;

And further, that this resolution be forwarded to AMO and other Ontario municipalities for their consideration.

The above recommendation is provided for your consideration.
