Greetings,

On behalf of the members of the Hamilton Steelworkers Area Council I call upon you to support the efforts to lay out the welcome mat to wind tower construction in Hamilton.

The need for clean renewable energy is pressing. The need for good jobs with a future is immediate.

Hamilton has what it takes to lead in this field. Please support the upcoming resolution to restrict the ban on wind towers to Glanbrook.

Thank you in advance for your consideration regarding this important matter.

Darren Green | President
Hamilton Steelworkers Area Council
