Council Direction:

At the March 19, 2012, meeting of the AF&A Committee, the following resolution was approved:

(f) Quarterly Status Report on the use of Policy 10 - Emergency Purchasing and Policy 11 - Negotiations for the 4th Quarter 2011 (FCS11005(c)) (City Wide) (Item 5.6)

(i) Report FCS11005(c), respecting the Quarterly Status Report on the use of Policy 10 - Emergency Purchasing and Policy 11 - Negotiations for the 4th Quarter 2011, was tabled.

(ii) That the appropriate staff be directed to prepare a more detailed report, outlining the reasons for the number of single and sole source vendors in the procurement of goods and services, as shown in Appendix A to Report FCS11005(c), and report back to the Audit, Finance & Administration Committee.
Information:

The report on the use of Policy #10/11 is issued quarterly in accordance with the Purchasing Policy. This report details the procurement of goods and/or services during emergency situations and those detailed in Section 4.11 – Negotiations for the fourth quarter 2011.

The Policy for Negotiations is used in narrowly defined circumstances where it is justified that the policies for the general acquisition process could not be followed. The “Request to Use the Negotiation Policy/Emergency Reporting Form” is completed by the Client Department and signed by the departmental Director or General Manager and is then forwarded to the Procurement Manager for approval. These forms are kept on file in the Procurement Section and are available for viewing by Members of Council upon request to the Procurement Manager. The Procurement Section reviews each request to ensure that fair and ethical practices are utilized when goods/services are acquired using Policies 10 and 11.

Appendix ‘A’ to Report FCS11005(c) listed the 169 uses of Policy 10 – Emergency Purchasing and Policy 11 – Negotiations for the 4th Quarter 2011. The 169 forms completed by the departments and submitted to the Procurement Manager for review and approval are attached to this report in Appendix ‘B’ to this report. There is a second appendix, Appendix ‘A’ to report FCS11005(d), which provides a reference that allows the reader to use the PO numbers that were provided in Appendix ‘A’ to report FCS11005(c) as a key to find the completed Policy 10/11 form in Appendix ‘B’ to report FCS11005(d).

It should be noted that the amount on the Policy #10/11 form may differ from the Purchase Order (PO) amount as the amount on the Policy 10/11 form is an estimate provided by the department and the PO amount is the actual cost of the work. If the type was indicated as Sole, the amount reported was the amount spent with that sole source vendor in the fourth quarter of 2011. Sole source vendors are approved for use for a calendar year and each quarter the work undertaken in that quarter is reported.

- **Emergency Policy 10**  Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.
- **Negotiation Policy 11**  Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

#### For Negotiation Policy 11 requests, select ONE of the following:

- [ ] Short Supply  
  - Goods/services are judged to be in short supply due to market conditions.
- [ ] Sole Source  
  - There is only one known source for the goods/services (sole source).
- [ ] Bids Exceed Budget or Estimated Costs  
  - The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.
- [ ] Single Source  
  - A single source is being recommended.
- [ ] Contract Extension  
  - Contract No.:  
  - Extended from:  
  - Extended to:  
  - For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.
- [ ] Expanded Works  
  - Existing PO No.:  
  - Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Barton Auto offers a wide variety of products with competitive pricing, prompt delivery, and excellent service. They have 3 locations throughout the City. We are requesting this policy for the misc items we purchase that are not covered under any existing contracts or policies. These items do not exceed $5,000 in any single category, therefore we cannot issue contracts, but combined we spent approx. $27,000 in 2010. Buying from this single source allows us to reduce the number of invoices from various vendors and reduces the number of payments.

#### Signatures:

- **Departmental Director (for Policy 11 requests that are under $100,000) OR General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater):** Geoff Lupton

#### Approval Signature - Procurement Manager

---

Once completed and proper approvals have been obtained, please email this form as a .xls file to the "ProcurementPolicy10&11@hamilton.ca" email box.

Email “Subject” line should include the actual Vendor’s Name

EMERGENCY REPORT FORM - POLICY #10
REQUEST TO USE NEGOTIATION POLICY #11

Date: 2011.10.26
Department/Division: Public Works/Transit
Reporter's Name: Mark Selkirk
Phone Number: 905-546-2424 ext. 5968
Buyer: Barb Kinrade
Vendor: Bridgestone/Firestone

Description of Goods/Services Required:
Supply and Delivery of Leased Tires for Transit Revenue Buses

Is there an approved budget for this purchase? Yes [ ] No [ ] Value: $300,000.00
Account Number: 54070 Dept Id. / Project Id.: 580330

Emergency Policy #10 Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.

Negotiation Policy #11 Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

For Negotiation Policy 11 requests, select ONE of the following:

☐ Short Supply
☐ Goods/services are judged to be in short supply due to market conditions.

☐ Sole Source
☐ There is only one known source for the goods/services (sole source).

☐ Identical Bids
☐ Two or more identical bids were received.

☐ Bids Exceed Budget or Estimated Costs
☐ The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.

☐ Bids Failed to Meet Specifications or Conditions
☐ All Bids received failed to meet the specifications or tender terms and conditions.

☐ Single Source
☐ A single source is being recommended.

☐ Contract Extension
Extended until: 2012.04.30
☐ For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

☐ Time-Sensitive
☐ A time-sensitive situation.

☐ Expanded or coordinated works.
☐ Expanded or coordinated works.

Provide a brief explanation identifying the condition that make it necessary to use this policy.
Attach all other supporting documentation as available.

The Contract extension for the leasing of tires for the Transit revenue fleet expires on 2011.12.31. This contract extension is being requested to allow additional time for Council approval of the "Lease vs. Buy" report, as directed by report FCS04014 (Lease Financing Policy). This report will be heard at Public Works Committee on November 21st 2011. Subsequent to the approval of this report, Transit will work with the Purchasing Department to construct, publish, evaluate, and award a contract to the successful bidder.

General Manager (Required for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater.) ________________________________

Date: 10/3/11

Existing PO No.: [ ]
Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

The city of Hamilton parts supply contracts were being considered as an option for the "Small Car & Light Duty Truck Service" contract. After much consideration it has been decided to not exercise that option. Due to the prices already having been entered in Avantis, it would be more time and cost-efficient to continue using Transaxle.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR

There are only 2 Caterers in the area that can handle the intricacies of Backstage Catering. These particular caterers are used by the Air Canada Centre, The Molson Canadian Amphitheatre and various film locations in the Toronto area. Typically the catering bill would be paid by the show promoter on behalf of the venue. For the Godsmack show there was no promoter involved. Bids were received from both caterers. Capers Catering on Location had the lowest bid.

**Signatures:**

POLICY 10 - EMERGENCY REPORTING FORM
POLICY 11 - REQUEST FOR USE OF NEGOTIATION POLICY

Date: November 14, 2011
Department/Division: Police
Reporter's Name: Dan Bowman
Phone Number: 905-546-4731
Buyer: Doris Ciardullo
Vendor: CHYSER Vendors

Description of Goods/Services Required:
Supply of Original Equipment Parts that are only made available by the manufacturer to their dealer networks. These parts are generally not available from aftermarket suppliers. The local dealers will respond to Tender C9-01-11 Supply and Delivery of Original Equipment Manufacturer (OEM) Vehicle Parts For Hamilton Police Service

Is there an approved budget for this purchase? [ ] Yes [ ] No 
Value: $50,000.00
Account Number 55135 Dept Id / Project Id 376622

[ ] Emergency Policy 10 Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.
[ ] Negotiation Policy 11 Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

For Negotiation Policy 11 requests, select ONE of the following:
[ ] Short Supply
Goods/services are judged to be in short supply due to market conditions.
[ ] Sole Source
There is only one known source for the goods/services (sole source).
[ ] Bids Exceed Budget or Estimated Costs
The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.
[ ] Single Source
A single source is being recommended.
[ ] Contract Extension
For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.
[ ] Expanded Works
Approved construction project has unexpected work arising during construction, does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Expand the cell if required. Attach all other supporting documentation as available.
This is for the supply and delivery of CHYRLER only parts for CHYRLER Ford vehicles. These parts are generally not available from aftermarket suppliers. There will be competition between CHYRLER Dealers to provide this service.
November 15/11 added by Angela Mastandrea: Tender requirements will include brand naming of OEM parts - where a Board approval does not exist to standardize these parts. A SEPARATE PO WILL NOT BE ISSUED AS A RESULT OF THIS REQUEST/APPROVAL.

General Manager (Required for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater.) 

Approval Signature - Manager of Purchasing

Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Genivar was awarded Contract C11-72-08 Professional Engineering Consultant Services Required for the Woodward Avenue Water Treatment Plant Low Lift Pumping Station Upgrades in the amount of $635,986.00. There have been several tasks added to the Low Lift Pumping Station construction contract, such as pipe modifications, pump base reconfiguration and installation of a new isolation valve, which have pushed the project completion date to January 2012. In addition, the Low Lift Intake Works construction contract is also delayed due to poor weather, intake obstructions and additional chlorination tasks not identified in the original scope of work. As a result of these issues on the construction contracts, Genivar's engineering assignment will require additional contract administration, resident services and design services. As insufficient contingency funds remain on Genivar's PO, we are requesting PO 45066 be increased by not more than $70,000.00 to cover the cost of the additional engineering services which are required to complete this project.

[ ] Contract Extension Contract No.: ____________ Extended from: ____________ Extended to: ____________
For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.
[ ] Expanded Works Existing PO No.: 46260
Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Hatch Mott MacDonald was awarded Contract # C11-92-08 - Professional Engineering Consulting Services Required for the Effluent Disinfection Upgrades at the Dundas Wastewater Treatment Plant in the amount of $641,637.00.

Further design by the consultant is required due to unforeseen site conditions encountered during construction such as: 1) contaminated soils, 2) unmapped and the poor condition of underground utilities requiring repair, along with unreliable existing plant equipment (effluent service water pumps) requiring replacement. Additionally, these unexpected problems are delaying the construction contract requiring further consultant construction management services. Therefore, we are requesting that PO # 46260 be increased by $60,000.00 to cover the above noted items which will not expand the original scope, but will be required to complete this project.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater) __________________________ Date 12 Sept 2011

POLICY 10 - EMERGENCY REPORTING FORM

NOTE for all Policy'11 requests: All requisite approvals must be obtained before a vendor is engaged. This is when a commitment has been made to a vendor, services have commenced/completed or goods have been ordered/received. If not, the purchase will be considered Non-Compliant.

Date: September 28, 2011
Department/Division: Public Works / Environment and Sustainable Infrastructure
Reporter's Name: Steven Hoover
Phone Number: ext. 7408
Procurement Contact: Dina Urciuoli - Procurement Specialist
Vendor Name: AECOM Canada Limited

Description of Goods/Services Required:
Expand P.O. 47820 for additional engineering services required for the Freelton Water System Upgrades project.

Is there an approved budget for this purchase? [ ] Yes [ ] No Value: $50,000.00
Account Number 55801 Dept Id./Project Id. 514067651

Emergency Policy 10 Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.

Negotiation Policy 11 Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

☑ Short Supply
Goods/services are judged to be in short supply due to market conditions.

☑ Sole Source
There is only one known source for the goods/services (sole source).

☑ Bids Exceed Budget or Estimated Costs
The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.

☑ Single Source
A single source is being recommended.

☑ Contract Extension
Contract No.: Extended from: Extended to:
For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

☑ Expanded Works
Existing PO No:
Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

AECOM Canada Limited (AECOM) was awarded Contract G11-100-08, Professional Engineering Consultant Services for the Freelton Water System Upgrades to Well FDF01 and Elevated Tank HDT03 and to Develop New Well FDF03 and Decommission Well FDF02. AECOM has advised the City that it will be submitting a claim for additional engineering effort required for coordinating and resolving unforeseen issues that developed during construction, such as changes to contract specified materials, changes to contract work, relocation of structures, drainage issues and the encountering of bed rock. Insufficient funds remain on the P.O. to accommodate this claim, therefore, we are requesting that P.O. 47820 be increased by not more $50,000.00 to cover the cost of the claim. Discussions will be undertaken with AECOM to validate the claim and a P.O. requisition will subsequently be issued.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater)

Approval Signature - Procurement Manager

NOTE for all Policy 11 requests: All requisite approvals must be obtained before a vendor is engaged. This is when a commitment has been made to a vendor, services have commenced/completed or goods have been ordered/received. If not, the purchase will be considered Non-Compliant.

Date: October 3, 2011
Department/Division: Public Works - ESI - Water & Wastewater - Distribution & Collection
Reporter's Name: Bert Posedowski
Phone Number: ext. 3199
Procurement Contact: Donna Drozdz - Senior Procurement Specialist
Vendor Name: Veritec Consulting Inc.

Description of Goods/Services Required:
To provide engineering services toward the completion of district metering and leak detection for all of pressure district 5 in the City of Hamilton.

Is there an approved budget for this purchase? [ ] Yes [ ] No
Value: $26,480.00
Account Number
Dept Id./Project Id. 5140955922

Emergency Policy 10 Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.

Negotiation Policy 11 Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

For Negotiation Policy 11 requests, select ONE of the following:

[ ] Short Supply
Goods/services are judged to be in short supply due to market conditions.

[ ] Sole Source
There is only one known source for the goods/services (sole source).

[ ] Bids Exceed Budget or Estimated Costs
The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.

[ ] Single Source
A single source is being recommended.

[ ] Contract Extension
Contract No.: [ ]
extended from: [ ]
extended to: [ ]
For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

[ ] Expanded Works
Existing PO No.: [ ]
Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Veritec Consulting Inc was awarded the contract 011-47-09 to complete the district metering and leak detection for all of pressure district 5 in the City of Hamilton. The contract was awarded under Tender (over $100,000) as a lump sum contract however, due to out of scope changes and schedule that were beyond the control of the vendor, this extension is required to complete the project. Veritec is in the middle of the project and the additional work contemplated is an integral part of the scope and it is not feasible to 'parachute' this work to another vendor.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR
General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater)

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Several factors during the permitting and construction stages have resulted in additional efforts by AMEC Earth and Environmental. Additional meetings with Building Dept. and Utilities to acquire demolition and building permits. Additional time to locate site services because original available plans were not accurate. Additional time to design separate fireline and backflow prevention system required for the Building Permit. Additional time to Supervise remediation of the subsoil/subgrade. Additional services required from electrical and mechanical subconsultants due to design changes required because original available site service plans were not accurate.

[ ] Contract Extension
Contract No.: Existing PO No.: 56250
Extended from: Extended to: Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Alberici was awarded Contract C14-42-10 Stone Church and Garth Street Water Pumping Station (HD06A) Upgrades in the amount of $8,011,925. We are requesting that PO 56250 be increased by not more than $475,000 to cover the cost of the following items, which do not expand the original scope, but are required to complete this project:

1. Alberici advised it will be submitting a claim in the amount of $150,000 due to unanticipated delays to the Contract. Discussions will be undertaken with Alberici to validate the claim.

2. For successful completion of the Contract, the following unexpected issues will have to be addressed: deletion of the mezzanine, revised SCADA Standards, modifications to pre-purchased electrical equipment, changes required to comply with TSSA standards, additional asbestos removal and additional utility work (see attached). As insufficient contingency funds remain on the PO, additional funds of approximately $275,000 will be required to cover the cost of this work.

3. As further unanticipated issues may arise on this project, an additional blind contingency of $50,000 is being requested to allow completion of this complex project and avoid any further construction delays.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR
General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater)

○ Negotiation Policy 11 Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

For Negotiation Policy 11 requests, select ONE of the following:

☐ Short Supply
   Goods/services are judged to be in short supply due to market conditions.

☐ Sole Source
   There is only one known source for the goods/services (sole source).

☐ Bids Exceed Budget or Estimated Costs
   The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.

☐ Single Source
   A single source is being recommended.

☐ Contract Extension Extended until:
   For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

☐ Expanded Works Existing PO Number:
   Approved construction project has unexpected work arising during construction, does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Expand the cell if required. Attach all other supporting documentation as available.

Hedgerow Software Ltd is the only company specifically configured for managing food premises inspections in Ontario and is integrated with our current food premises web disclosure system. This allows field entry of inspection reports, consistent inspection data collection and extensive reporting capabilities that is integrated with our current Food Safety Zone web disclosure system.

Very comprehensive hardware and tool inventory with pricing competitive with other vendors. The list of items purchased from this vendor is extensive and includes items such as chains, ladders, extension cords, hoses, ropes, aircraft cable, trouble lights, grease nipples, grease guns, barrel pumps, shop rags, hack saw blades, drill bits, oil funnels, fuel pump dispenser nozzles. The convenience offered by the extensive inventory reduces the time and effort needed to shop at multiple vendors and reduces downtime for users. 2010 expense to Nov. 30 was $11,233. 2011 expense to Sep 30 is $12,293 and unplanned ladder replacements amounting to $5,000 are required in addition to our planned purchases. Previously approved request is for $20,000. T.T. Liquid Handling Equipment, 790 King St. West, Hamilton ON/905-529-3861

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Expand the cell if required. Attach all other supporting documentation as available.

Child and Adolescent Services provides Court Ordered medical/psychological assessments for adolescents with severe mental health disorders under the mandate of the Youth Criminal Justice Act. Judges order assessments and on occasion specifically order a psychiatric assessment. There is an extreme shortage of child psychiatrists in Hamilton and across Ontario. In Hamilton there is only 1 child psychiatrist available to do this work. We are requesting an extension of 7 months and an increase in the amount from $40,000 to $90,000. This is an extension to PO#58493

General Manager (Required for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater.)

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

PO # 59405 was setup to cover doing the annual maintenance and repairs on the following Cultural Facilities: Dundurn Castle, Military Museum, Nash Jaskson, Children's Museum, 240 Burlington St. and Whitehearn. These contracts are to repair and inspect the Sprinkler systems in these buildings. Need to set up a PO for this account as we will spend over $5000.00 for the entire year. We will be getting three quotes on this work as these contracts begin to expire in the coming years. The original PO was for $9000, but we have had three major repairs this year at Dundurn Castle and the Military Museum which have used up these funds. I need to extend this PO by $6000 to cover the remainder of 2011

This is to request permission to negotiate with the utility company the cost for relocation of their plant. Horizon Utilities is the sole vendor who will be able to do their relocations. Cost share agreements in place are used as a basis to determine the amounts owed by the City to the utility agency. This is the general sole source request for the year 2011.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Golder Associates Limited was hired for Stage 3 and Stage 4 Archaeological mitigation for the creation of an asphalt walkway at the Olmstead Site in Ryckman’s Neighbourhood. The purchase order was valued at $99,980, due to the size of the site and scope of work. During the course of the Stage 4 removals, several significant features were found. A realignment of the path and additional Stage 3 and 4 work is required to avoid these significant features. The current purchase order will not cover the additional fees required to evaluate the design change to avoid the significant features. Golder is currently on site, and in depth knowledge and understanding of the site, and can seamlessly finish the work with the additional funds. Using Golder will save money over hiring a second consultant, since a new firm would require much more time and effort for mobilization costs, scheduling, comprehension of the work to date, and coordination with Six Nations monitors, in accordance with the Fort Albany Crown Treaty.

---

An increase to PO #60334 for the Chiller conversion at Copps Coliseum is required to meet the August 1st, 2011 legislative changes for the disposal of CFC-11 whereby Refrigerant Management Canada (RMC) added a disposal fee for CFC-11 (R11). The charge for this is $8.00/kilogram disposal fee for any CFC-11 refrigerant entering the collection and disposal program. Also, after Policy 11 approval was received for the conversion of the chillers, Johnson Controls indicated that their price did not include refrigerant monitoring and ventilation which is a requirement. This is required to maintain chiller compliance and to gain approval from the Technical Standards and Safety Authority (TSSA) to allow continued operations of the chillers.

☐ Contract Extension
Contract No.: ____________________________ Extended from: ____________________________ Extended to: ____________________________
For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

☐ Expanded Works
Existing PO No.: 60606
Approved construction project has unexpected work arising during construction, but does not expand the scope.

The Kenilworth library had some flooding in the basement due to rain leaking through a section of the foundation. The building is currently being renovated by Triple Crown under PO 60606. The work consists of replacing the barrier free ramp which is adjacent to where the foundation is leaking. If the new ramp installation proceeds without the foundation repairs, we will no longer be able to access the foundation, therefore the repairs must be done prior to ramp installation. This work also needs to take place quickly to prevent possible mold growth in the basement of the library.

Value: $40,000.00

Account Number: 58212
Dept Id./Project Id: 3540941912

Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.

The Kenilworth library had significant flooding in the basement due to rain leaking through the front basement windows on October 20, 2011. These are new leaks, separate from the ones originally discovered. The building is currently being renovated by Triple Crown under PO 60606. Some of the flooring work already performed by Triple Crown will need to be redone due to damage to the new floor coating. There will also need to be investigative work by taking down some of the drywall along the wall where the leaks were found to confirm the source of water. We will then need to fix or replace the windows and drywall. This work also needs to take place quickly to prevent possible mold growth in the basement of the library.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater)

Approval Signature - Procurement Manager

Vendor Name: Triple Crown Enterprises

Description of Goods/Services Required:
Increase to P.O. 60606 for Triple Crown Enterprises due to flooding of the Kenilworth library on October 20th, 2011. The original estimate was insufficient.

Is there an approved budget for this purchase?  Yes  No  Value: $50,000.00
Account Number 59212  Dept Id./Project Id. 3540941912

Emergency Policy 10 Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.

Negotiation Policy 11 Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

For Negotiation Policy 11 requests, select ONE of the following:
☐ Short Supply
   Goods/services are judged to be in short supply due to market conditions.
☐ Sole Source
   There is only one known source for the goods/services (sole source).
☐ Bids Exceed Budget or Estimated Costs
   The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.
☐ Single Source
   A single source is being recommended.
☐ Contract Extension
   Contract No.:
   Extended from:
   Extended to:
   For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.
☐ Expanded Works
   Existing PO No.:
   Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

The Kenilworth library had significant flooding in the basement due to rain leaking through the front basement windows on October 20, 2011. These are new leaks, separate from the ones originally discovered. The building is currently being renovated by Triple Crown under PO 60606. Some of the flooring work already performed by Triple Crown will need to be redone due to damage to the new floor coating. There will also need to be investigative work by taking down some of the drywall along the wall where the leaks were found to confirm the source of water. We will then need to fix or replace the windows and drywall. This work also needs to take place quickly to prevent possible mould growth in the basement of the library. The original estimate was insufficient to complete this work.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR
General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater)

For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

[ ] Expanded Works
Existing PO No.: Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Battlefield Park (Ward 9) has been designated as a National Historic Site owing to the War of 1812’s Battle of Stoney Creek (June 6, 1813). To mark the Bicentennial of this significant historical event the City will be restoring and implementing the original early 1920’s commemorative landscape plan as designed by the landscape architectural team of Durlington-Good. As part of the approval process the Province’s Ontario Heritage Trust requires firms experienced in built heritage & cultural heritage landscapes to oversee projects such as this. Wendy Shearer from MHBC PLANNING Limited was originally hired under Policy 10 dated August 17, 2011 to oversee PW-11-21(P) Park Redevelopment (East Side). Contract administration of construction has commenced and is underway. Given the complexity of this project MHBC requires additional fees to complete their required contract administration works. The continued oversight of the project by MHBC is critical to its success and it is therefore recommended MHBC’s P.O. be extended.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater)

Existing PO No.: Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Currently, the Municipal Law Enforcement Section manages enforcement using two databases - AMANADA and Hansen. Our Environmental complaints (long grass & weeds; illegal dumping; snow, etc) are managed through Hansen. The calls come through the Contact Centre into Hansen. The volume of complaints received through Hansen in 2010 was 6,224. AMANADA is our main database and PBS is moving toward consolidating all complaints/enforcement activity in AMANADA. The module will allow for the migration of calls on a daily basis from Hansen into AMANADA. The need to operate with one database system was identified as a recommendation in two of the Operational Reviews (2007 & 2008). The EAI module which is a module of the AMANADA System has been specifically designed to interface between other software and databases. The sole proprietor of AMANADA is CSDC, Systems Inc.

Plant Operations currently have numerous installations utilizing ITT Flygt process systems, including pumps, mixers, drives, controllers, etc. and other miscellaneous equipment and parts for these ITT systems. Consequently, in order to maintain these systems it is requisite that we sole source replacement parts and equipment from ITT Flygt, as the OEM components. Alternate manufacturers of these parts can't be used as that would require modifications to other parts of the system.

General Manager (Required for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater.)

At 2:30 a.m. on July 2, Plant Operations received a pump bearing alarm through SCADA from the Stelco pumping station. This alarm is interlocked with the pump motor to shut the pump down and protect it from incurring any further damage, resulting in a loss of our ability to supply Stelco with process water for their production facility. In order to effect repairs it was necessary to bring in a contractor to repair the pump motor windings and replace the motor bearings. This is the only pump currently in operation and capable of supplying the Stelco facility. Consequently, Plant Operations is now requesting confirmation of Emergency Works, pursuant to the City's Purchasing Policy #10, to obtain the services of specialized contractors to supply all necessary manpower, equipment and materials to repair the pump motor windings and replace the motor bearings.

In the spring of 2010 the Thorpe Street bridge collapsed and in so doing, made inoperable a watermain that is located directly under the bridge. That watermain provides water to the residents and businesses located south of the bridge. Since the loss of this watermain water quality in the area has been negatively impacted. Operations staff have been continuously flushing the water main in the area to manage water quality but this continuous flushing cannot continue into the winter season. The replacement of the watermain is required immediately and the City is proposing to assign the work to Rankin Construction, the contractor currently working on the emergency bridge replacement.

POLICY 10 - EMERGENCY REPORTING FORM

Date: September 22, 2011
Department/Division: Hamilton Public Library
Reporter's Name: Paul Takala
Phone Number: 905-546-3230
Buyer: Doris Ciardullo
Vendor: Knowledge Ontario

Description of Goods/Services Required:
Knowledge Ontario provides a service called AskON, where Public Libraries across Ontario participate in an online reference service. Participating libraries like Hamilton Public Library pay an annual subscription fee and our staff provide 8 hours of week of coverage. In exchange the online chat software is provided to HPL and our customers receive 42 hours of service a week and training.

Is there an approved budget for this purchase? [ ] Yes [ ] No Value: $8,000.00

Account Number 750160 Dept. Id. / Project Id. 55916

Emergency Policy 10 Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.

Negotiation Policy 11 Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

For Negotiation Policy 11 requests, select ONE of the following:
[ ] Short Supply
Goods/services are judged to be in short supply due to market conditions.
[ ] Sole Source
There is only one known source for the goods/services (sole source).
[ ] Bids Exceed Budget or Estimated Costs
The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.
[ ] Single Source
A single source is being recommended.
[ ] Contract Extension Extended until: __________________________

Hamilton Public Library has been participating in AskON online reference service for several years for free. It is currently the only cooperative online reference service for Ontario Public Libraries. Recently, Ontario government funding to the organization providing the AskON service, Knowledge Ontario, ended. Because of this change in funding, participating libraries need to pay an annual fee to use the service.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

On August 2, 2011, in response to a work request from Plant Operations, Plant Maintenance discovered that the pump shaft of the #3 pump at this station was broken, rendering the pump inoperable. This pump is the largest of the pumps in the station and is used to fill the Binbrook Water Tower and to maintain the pressure in Pressure District 23. This pump shaft has been repaired several times in the past, to the point where standard replacement shaft will not fit and a new shaft will have to be manufactured. Plant Operations is now requesting confirmation of Emergency Works, pursuant to the City's Purchasing Policy #10, to obtain the services of a contractor to remove and repair the effected pump from the station and to restore full operational integrity of the pump, in order to ensure a continuous water supply to District 23.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR

At 2:30 a.m. on July 3 Plant Operations received a pump bearing alarm through SCADA from the Slessco pumping station. This alarm is interlocked with the pump motor to shut the pump down and protect it from incurring any further damage, resulting in a loss of our ability to supply Slessco with process water for their production facility. In order to effect repairs it was necessary to bring in a contractor to isolate the pump from the supply water side. This is the only pump currently in operation and capable of supplying the Slessco facility. Consequently, Plant Operations is now requesting confirmation of Emergency Works, pursuant to the City's Purchasing Policy #10, to obtain the services of specialized contractors to supply all necessary manpower, equipment and materials to isolate the pumping system in order to effect repairs.

The de-watering system at the Woodward WWTP utilizes centrifuges that were manufactured and supplied by Alfa Laval (OEM). These centrifuges are required to process Biosolids from the City's Wastewater Treatment Facility, and directly impacts the plant's ability to maintain regulatory compliance. These centrifuges must be maintained by technicians with technical resources, product knowledge and specialized equipment and Alfa-Laval as the OEM can provide maintenance, replacement parts, repair labour and other services. Consequently, in order to maintain this equipment it is requisite that Plant Maintenance sole source the preventative/repair maintenance requirements and parts to the OEM. Alternate manufacturers or service providers cannot be used, as they cannot provide the replacement parts and would not have the specialized testing and repair equipment or product knowledge.

General Manager (Required for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater.)

Early Literacy Stations are a unique product that provides a turn-key solution to safe educational computing for children. This product is designed specifically for and used by many public libraries in Canada and the U.S. There are no other comparable solutions available. The Early Literacy Stations have been a significant time saver for staff and have enabled the library to phase out a kids gaming infrastructure which cost over $35K. We have successfully deployed early Literacy Stations in several locations already.

On May 25, 2011 Council approved a resolution to extend the contract for Animal Control Services in Glanbrook until staff conducts a review and reports back in the Fall of 2011. A public meeting was held in Glanbrook on September 21, 2011. The report has been prepared and will be dealt with at the November 8 Planning Committee and by Council on Nov 16. If changes are approved, they can not be implemented before the end of November as the time frame is too short. Accordingly, the contract needs to be extended to the end of December 2011.

On Saturday July 16, 2011, Plant Operations staff discovered a leak in the effluent water system at the Woodward Wastewater Plant. This water system is used in many of the process areas of the plant; however, this leak is located immediately adjacent to the chlorine injector addition point, which is required to maintain regulatory compliance. Consequently, Plant Operations requested confirmation of Emergency Works, pursuant to the City's Purchasing Policy #10, to obtain the services of a contractor to repair the effluent watermain, in order to maintain the addition of chlorine at the plant and keep within regulatory compliance for disinfection.

## POLICY 10 - EMERGENCY REPORTING FORM

**Date:** 2011 01 10  
**Department/Division:** W & WW / Environment & Sustainable Infrastructure  
**Reporter's Name:** Lindsay Reiach  
**Phone Number:** 5662  
**Buyer:** Donna Drozdz  
**Vendor:** Smith & Loveless

### Description of Goods/Services Required:

OEM spare parts for existing equipment utilized by Plant Operations

---

### Is there an approved budget for this purchase? 
- [ ] Yes  
- [x] No  
Value: $95,000.00

### Account Number  
54720

### Dept Id. / Project Id.  
510320

---

### For Negotiation Policy 11 requests, select ONE of the following:

- [ ] Short Supply  
- [x] Sole Source  
- [ ] Bids Exceed Budget or Estimated Costs  
- [ ] Single Source  
- [ ] Contract Extension  
- [ ] Expanded Works

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Expand the cell if required. Attach all other supporting documentation as available.

Plant Operations currently utilize Smith & Loveless process systems, including pumps, classifiers, grit separators, controllers, etc. and other miscellaneous equipment and parts for these S&L systems, at the headworks to the Woodward Wastewater Plant. Consequently, in order to maintain these systems it is requisite that we sole source replacement parts and equipment from S&L as the OEM. Alternate manufacturers of these parts cannot be used as that would require modifications to other parts of the system.

---

### General Manager (Required for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater.)

The City has a long-standing relationship with Green Venture to provide education and outreach support. Few delivery agents have the experience, knowledge and partnership resources of Green Venture that could mobilize and leverage further funding to continue current environmental programs and initiate new environmental programs in the City. Green Venture is a Smart Commute Hamilton partner organization and contributes to the mandate of the Transportation Management Association, making them the ideal group to help build community capacity and implement programming that engages the public and encourages behaviour change to travel modes that are more sustainable.

POLICY 10 - EMERGENCY REPORTING FORM

NOTE for all Policy 11 requests: All requisite approvals must be obtained prior to a vendor being engaged and/or any work being completed, or the purchase will be considered Non-Compliant.

Date: June 21, 2011
Department/Division: Public Works - Environment and Sustainable Infrastructure
Reporter's Name: Mike Field/Ron Gallo/Hart Solomon
Phone Number: 4576/6160/4584
Procurement Contact: Donna Drozd - Senior Procurement Specialist
Vendor Name: McMaster University - Dr. Ghani Razaqpur

Description of Goods/Services Required:
The development of a validated condition assessment (inspection) procedure for existing concrete City owned street lighting pole structures. The condition assessment procedure validation shall be conducted by destructive testing and analysis of select existing street light poles. The procedure will be utilized to establish an annual street lighting pole inspection program (street lighting pole asset valued at approximately $20 million) and assist in asset management/capital planning to address degraded infrastructure - end of life expectations: pole repair and replacements needs.

Is there an approved budget for this purchase? ☐ Yes ☐ No
Value: $80,000.00

Account Number 55801 Dept Id./Project Id. 404110016

☐ Emergency Policy 10 Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.

☐ Negotiation Policy 11 Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

For Negotiation Policy 11 requests, select ONE of the following:
☐ Short Supply
Goods/services are judged to be in short supply due to market conditions.

☐ Sole Source
There is only one known source for the goods/services (sole source).

☐ Bids Exceed Budget or Estimated Costs
The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.

☐ Single Source
A single source is being recommended.

☐ Contract Extension
Contract No.: __________
Extended from: __________
Extended to: __________
For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

☐ Expanded Works
Existing PO No.: __________
Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Dr. Razaqpur is the former Chair of Civil Engineering at McMaster University and currently Professor of Civil Engineering (Structures and Earthquake Engineering; Geotechnical and Materials Engineering) and Chairman of two Canadian Standards Association associated with the design and rehabilitation of concrete structures (CAN/CSA S806 & S807). He is the Canadian leading industry expert in infrastructure durability and sustainability focusing on condition assessment, materials and structures modeling techniques, damage detection and monitoring and innovative repair and rehabilitation technologies. McMaster University is the only local university with a lab to facilitate the destructive testing of concrete poles making this a cost-effective exercise (local transportation of existing City of Hamilton street lighting poles). The lab facility and Dr. Razaqpur's expertise ensures an accurate and validated condition assessment procedure. There are no known condition assessment procedures for concrete street lighting pole structures or firms that provide this on a commercial basis.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater)

Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

On January 6, 2010 Plant Operations received a "Notice of Deficiency" (#12950983) from the Electrical Safety Authority regarding the electrical service and equipment at HCS643 Main/King CSO tank. The notification, Item (c) Correct the defects listed below no later than February 01, 2010. Plant Maintenance has previously requested confirmation of Emergency Works, pursuant to the City's Purchasing Policy #10, to investigate and replace the defects as per the Notice of Deficiency in order to maintain electrical service to this facility, and to meet the time requirement imposed by the Authority. The work is now complete and Plant Operations is formalizing the paperwork in order to process the invoice.

The original quotation submitted by the vendor for this work was $4,550.00 + HST. While performing the inspection and testing on site, additional labour and service charges were incurred that were not included in the original quotation. These additional charges totalling $765 increased the cost of the work to $5,315.00 + HST necessitating a Policy 11 authorization.

Approved construction project has unexpected work arising during construction, does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Expand the cell if required. Attach all other supporting documentation as available.

In order to make room within the Brock Road Yard for the new culvert compound it was necessary to remove the large amount of road debris and illegal roadside dumping material that had been collected and stockpiled at the Yard over a number of years. As the material being disposed was not consistent in mass or weight (wood, household furniture, garage etc.) it was very difficult to estimate the weight of the material being disposed into the dumpsters and project planning estimates were understated. Actual weights and their associated tipping and environmental fees exceeded the quotation limit. As this was a one time only exercise for the creation of the required compound, we do not foresee the need for such a large disposal operation in the future.

In 2005, Hamilton Police Service (HPS) implemented Beat Tracker, an ArcIMS application that is built on the ESRI software platform. This software enables crime analysts, front line police offices and the various levels of command to view spatial representations of calls for service. The product ArcIMS has now reached its end-of-life and will no longer be supported by ESRI Canada. The HPS would like to retain the services of ESRI Canada because they developed the initial product Beat Tracker, they are familiar with the Services organizational needs as well as their own product platform ArcGIS.

Description of Goods/Services Required:
Purchase new HP laptops and desktops as per the Police standard.

Is there an approved budget for this purchase? ✔ Yes ☐ No Value: $16,000.00

Account Number 53415 Dept Id / Project Id 376659

☐ Emergency Policy 10 Use explanation area below to describe the emergency situation and how goods
and/or services were acquired including PeopleSoft requisition number if entered.

☐ Negotiation Policy 11 Complete all sections below, and indicate by checking ONLY the most appropriate
selection, the reason for requesting the use of the Negotiation Policy for this
purchase.

For Negotiation Policy 11 requests, select ONE of the following:
☐ Short Supply
Goods/services are judged to be in short supply due to market conditions.

☐ Sole Source
There is only one known source for the goods/services (sole source).

☐ Bids Exceed Budget or Estimated Costs
The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.

☐ Single Source
A single source is being recommended.

☐ Contract Extension Extended until:
For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in
issuing a new tender/proposal document.

☐ Expanded Works Existing PO Number:
Approved construction project has unexpected work arising during construction, does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Expand the cell if
required. Attach all other supporting documentation as available.

It has been seven months since HPS has replaced or purchased any new computers for the organization. The reason for
not ordering new computers was twofold. Firstly, HPS wanted to wait until the City completed their desktop/laptop tender
process and secondly, the new O/S (Windows 7) is not compatible with our current version of our Records Management
System. Unfortunately HPS cannot wait any longer as new hires have been announced and grant money has been
awarded to purchase new computers. As it stands, HPS will continue to maintain an HP environment. For this one time
order we would like to proceed with a special request to purchase the necessary computers and deal directly with Telecom
Computers and HP where they will honour the pricing awarded via the City tender process. In total we require, 2
notebooks (via grant money for Human Trafficking Unit and Command Van) and 8 desktops to support new hires which
include Assistant Finance Manager, IT Coordinator, DBA/Programmer Analyst, Enterprise Manager, Labour Relations,
Procurement Specialist, new Court staff and a unit for the Accident Reconstruction unit.

General Manager (Required for ALL Policy 10 requests REGARDLESS OF AMOUNT and for
Policy 11 requests that are $100,000 or greater.)

Approval Signature - Manager of Purchasing

Once completed and proper approvals have been obtained, please email this form as a .xls file to

Approved construction project has unexpected work arising during construction, does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Expand the cell if required. Attach all other supporting documentation as available.

MD Charlton is the exclusive distributor of Point Blank Body Armour. The Emergency Response Unit has researched several products and has found that this type of body armour offers several advantages over other products including self suspended ballistic system, critical contour cut providing maximum protection, rapid doffing for emergent deployment, pockets for armour plates on the sides and shoulders and Thor Shield protection which forms a passive layer providing protection from non-lethal energy weapons.

General Manager (Required for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater.) Ted Mason Date Oct 5/2011
Approval Signature - Manager of Purchasing Date Oct 19/2011

Once completed and proper approvals have been obtained, please email this form as a .xls file to Purchasing Policy 10 & 11’ at purchasi@hamilton.ca

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Plant Operations have numerous Allen-Bradley electrical motor control panels and equipment. Gerrie Electric is the Ontario representative of the OEM and is the only supplier of spare parts and support. Consequently, in order to maintain this electrical equipment it is requisite that Plant Operations sole source the procurement of spare parts and support from the Ontario OEM representative. Alternative manufacturers or service providers cannot be used, as they cannot provide the replacement parts and would not have the specialized product knowledge.

Reporter's Name: Chris Phinney
Phone Number: 905-546-2424 x7009
Procurement Contact: Barb Kinnade - Procurement Specialist
Vendor Name: Horizant Inc.

Description of Goods/Services Required:
To perform the customization, programming and installation of software which will allow for the automation of scheduled drawing publishing in ARCHIBUS. This enables the planning and design group to support the cost allocation for space activities (Leased and Owned) in a timely fashion, avoiding an onerous manual process. Also moves space reporting to existing web based platform and off of client/server platform which is being phased out by the product manufacturer.

Is there an approved budget for this purchase? Yes [ ] No [ ] Value: $9,500.00

Account Number 53251 Dept Id./Project Id. 790012

Emergency Policy 10 Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.

Negotiation Policy 11 Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

For Negotiation Policy 11 requests, select ONE of the following:

☐ Short Supply
Goods/services are judged to be in short supply due to market conditions.

☐ Sole Source
There is only one known source for the goods/services (sole source).

☐ Bids Exceed Budget or Estimated Costs
The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.

☐ Single Source
A single source is being recommended.

☐ Contract Extension
Contract No.: Extended from: Extended to:
For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

☐ Expanded Works
Existing PO No.: Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Horizant is the VAR assigned by the manufacturer. We have a highly customized environment which makes it extremely difficult for other vendors to get to up speed in order to do customization. In addition, existing support contracts with Horizant would render customization by a third party unsupported.

  Existing PO No.:  
  Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Water and Wastewater Operations currently has Hydromantis GPSx modeling software for use in plant operations to simulate performance of the wastewater treatment plant and predict the outcome of process changes prior to implementing them. The software can identify outcomes in advance of making these process changes and is a valuable tool to ensure that efforts to optimize plant performance will not result in upsets or non-compliance with regulatory obligations. Plant Operations has possessed this software program for a number of years and wishes to take advantage of the new features of the most recent version. The GPSx software is created and owned by Hydromantis, a Hamilton company and world leader in this field. Staff will receive additional benefits from the training that will be provided with the new software as the Woodward Plant will be re-created in this new version.

Plant Operations have numerous installations of Seepex Pumping Systems, including pumps, motors, drives etc. and other miscellaneous equipment and parts for these Seepex Pump Systems. In order to maintain these systems, it is requisite that replacement parts and/or equipment are sole sourced from Seepex Pump Systems, represented by their Ontario sole distributor Romantec. Alternate manufacturers of these parts/equipment can't be used as that would require modifications to other parts of the systems.

Department/Division: Public Works / E&SI

Reporter’s Name: Lindsay Reilach

Phone Number: 5662

Buyer: Donna Drozd

Vendor: T.D. Rooke Associates Ltd.

Description of Goods/Services Required:

OEM equipment and spare parts for existing equipment utilized by Plant Operations

Is there an approved budget for this purchase? [ ] Yes [ ] No

Value: $95,000.00

Account Number 54720 Dept Id. / Project Id. 510320

For Negotiation Policy 11 requests, select ONE of the following:

☐ Short Supply

Goods/services are judged to be in short supply due to market conditions.

☐ Sole Source

There is only one known source for the goods/services (sole source).

☐ Bids Exceed Budget or Estimated Costs

The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.

☐ Single Source

A single source is being recommended.

☐ Contract Extension

For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

☐ Expanded Works

Approved construction project has unexpected work arising during construction, does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Expand the cell if required. Attach all other supporting documentation as available.

Plant Operations currently have numerous installations utilizing Gratec Lightnin Mixers process systems, including mixers, drives, controllers, etc. and other miscellaneous equipment and parts for these systems. Consequently, in order to maintain these systems it is requisite that we sole source replacement parts and equipment from T.D. Rooke, as the OEM provider. Alternate manufacturers of these parts can not be used as that would require modifications to other parts of the system.

Signatures:

Departmental Director (for Policy 11 requests that are under $100,000) OR General Manager (for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater)

Approval Signature - Manager of Purchasing

Approved construction project has unexpected work arising during construction, but does not expand the scope

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available

The health risks of squirrels are ticks, fleas and squirrels can move or attack swiftly. The bats feces are highly contaminated. Charlton Hall is a residential treatment program available to ten 12-17 years of age who are experiencing serious emotional, mental health, behavioural problems or developmental difficulties. Anxiety, attachment, attention deficit, conduct and post traumatic stress disorders are common diagnostic features among the residential population. Charlton Hall is a structured therapeutic environment operating seven days in a residential neighbourhood. There are approximately 8-10 girls living at the site with support staff.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater)

Procurement Contact: Vibe Hirtzade - Procurement Specialist
Vendor Name: OTIS

Description of Goods/Services Required:
Due to emergency/unexpected sewage flooding in the elevator pit, OTIS was needed to provide the plumbing contractor access into the elevator pit, as OTIS is the only contractor authorized to provide access into the pit. OTIS was on site after hours on Oct 14/11 and then had to return on Oct 17/11, to provide access. The final repair is pending; therefore, OTIS will need to provide access one additional time (pending no unforeseen circumstances). (See attached photos 201118842 & 201118889)
Service will be at the Hamilton Central Library.

Is there an approved budget for this purchase? [ ] Yes [ ] No Value: $ 15,000.00
Account Number 54915
Dept Id/Project Id 791161

Emergency Policy 10 Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.

Extended from: Extended to: 10/18/11
For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.
[ ] Expanded Works
Existing PO No.,
Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

It was necessary to use a Policy 10, as the sump pumps unexpectedly failed, which caused flooding in the elevator pit, which released a strong odour of sewage. The pit had to be drained and the only people who are authorized to access the elevator pit are the technicians from OTIS; therefore, they had to be on site to provide access and stay on site until the work was completed, as elevator elevator pit can't be left unattended without an authorized OTIS technician.

Vendor Name: Hamilton Port Authority

Description of Goods/Services Required:
Partnership support for Randle Reef Sediment Remediation in Hamilton Harbour.

The City has committed up to $8M toward the implementation of Randle Reef Sediment remediation in Hamilton Harbour. This contribution is part of the support being provided by a larger set of stakeholders. Project Implementation has not yet begun. In order to provide greater confidence in the design and costing of the Randle Reef Sediment Remediation project prior to the start of work, a process of peer review and standardization of documents is being undertaken. In addition, a project communication tool will be developed. The total value of this work is estimated to be $500K split between 4 participating stakeholders (Hamilton Port Authority, Environment Canada, Ontario Ministry of Environment and the City of Hamilton). The City portion is valued at $125K.

Is there an approved budget for this purchase? [ ] Yes [ ] No
Value: $125,000.00

[ ] Expanded Works
Existing PO No.: ____________
Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

This work is a partnership effort related to contamination found at Randle Reef in Hamilton Harbour. The process of design is being undertaken by a consulting team procured through the lead agency for the project. Additional work is needed to provide stakeholder confidence in the design and costing information developed to this point. This confidence will help stakeholders further validate the approach to Randle Reef and the expense being incurred. Work is leveraging a process already in place through the lead agency on the project that will select the qualified company to undertake the work.

Interactive training workshop on the topic of "collaboration" to be provided to 30 Healthy Living Division staff on Thursday, 24 November 2011.

Is there an approved budget for this purchase? [ ] Yes [ ] No Value: $5,700.00

Account Number 55735 Fees for service Dept Id./Project Id. 875000

Emergency Policy 10 Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.

Negotiation Policy 11 Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

For Negotiation Policy 11 requests, select ONE of the following:

☐ Short Supply Goods/services are judged to be in short supply due to market conditions.

☐ Sole Source There is only one known source for the goods/services (sole source).

☐ Bids Exceed Budget or Estimated Costs The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.

☐ Single Source A single source is being recommended.

☐ Contract Extension Contract No.: [ ] Extended from: [ ] Extended to: For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

☐ Expanded Works Existing PO No.: Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

A training event for Healthy Living Division staff is being planned to build skills in the area of collaboration. The most highly recommended speaker found on this topic is Sid Ridgley who offers a two day session at the Schulich School of Business (York University) at a cost of $1,995 per person for a two day interactive workshop. To maximize our training budget, we would like to have him to present a one day workshop to 30 staff at a cost of $5,700. This will greatly reduce the registration costs and will avoid staff having to travel to Toronto. We have not discovered any other speakers on this topic as well recommended as is Sid Ridgley. He speaks internationally and is familiar with the municipal sector.

---

**Economic Development** has had an annual sponsorship agreement with the Hamilton Chamber of Commerce, whereby we sponsor events and seminars throughout the year. To date, Ec Dev has sponsored $1,500 for the Outstanding Business Achievement Awards Program (March 2011), and $3,000 for the Hamilton Economic Summit (May 2011). There are three additional events coming up in November and December which include the WebEdge Seminar $1,250, Northern Lights Seminar $1,250 and the title sponsorship for The Big Bank Theory -Economists Panel - $5,000. These events provide the City with an ideal opportunity to present the 'Invest in Hamilton' message to a captive and targeted audience. This sponsorship agreement is usually defined much earlier in the calendar year but with the change in leadership that took place at the Chamber mid summer, this agreement was just finalized last week.

A low bed semi-trailer carrying a forklift hit the north west girder of the railroad bridge located on Birch Ave (75 m South of Burlington St) on Monday October 24, 2011. The collision impact tore apart the outside plies of the bottom flange plate assembly. Several riveted connections got broken and some of the pipe support brackets were damaged. It was estimated, by simple visual inspection, that the damaged bottom flange suffer a loss of at least 50% of its carrying capacity. As a result, SOR suggested engaging Dufferin Construction to provide temporary shoring of the bridge structure while repair works are undertaken. Dufferin has done similar shoring work for SOR in the past. The various costs associated with this repair are expected to be recovered through Risk Management as the damages were a result of a vehicular accident. Police Report P11-753164

Revision date: 7 December 2009
NOTE for all Policy 11 requests: All requisite approvals must be obtained before a vendor is engaged. This is when a commitment has been made to a vendor, services have commenced/completed or goods have been ordered/received. If not, the purchase will be considered Non-Compliant.

Date: Oct. 19, 2011
Department/Division: Public Works, EFFT
Reporter’s Name: Tom Chessman
Phone Number: x2494
Procurement Contact: Donna Drozdz - Senior Procurement Specialist
Vendor Name: Hamilton Community Energy

Description of Goods/Services Required:
Engineering assessment of existing District Cooling Loop for capacity and capability options as it relates to additional buildings being added to the District Cooling system. This includes McMaster (at the existing Hamilton Wentworth Board of Ed. site) and a private developer adding buildings to the downtown core. Payment for this work will be from the Energy Reserve.

Is there an approved budget for this purchase? [ ] Yes [ ] No Value: $45,000.00
Account Number 55801 Dept Id./Project Id. 790200

Emergency Policy 10 Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.

Negotiation Policy 11 Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

For Negotiation Policy 11 requests, select ONE of the following:
[ ] Short Supply
Goods/services are judged to be in short supply due to market conditions.

[ ] Sole Source
There is only one known source for the goods/services (sole source).

[ ] Bids Exceed Budget or Estimated Costs
The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.

[ ] Single Source
A single source is being recommended.

[ ] Contract Extension
Contract No.: __________ Extended from: __________ Extended to: __________
For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

[ ] Expanded Works
Existing PC No.: __________
Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

As outlined in the Energy Commodity Policy we are electing to work with Hamilton Community Energy (HCE), a wholly owned subsidiary of the City as we both are engaged in the District Energy business and previous projects such as Lister Block. In the proposed relationship Public Works will supply cooling to HCE, whom in turn will contract for cooling supply services to McMaster and the new developer. New buildings being added to the District Cooling Loop need technical analysis and assurance that the existing system can supply the cooling needs. If not then additional options need to be explored to deliver the required cooling for these new developments. This technical and economical impact study will form the basis of future Council reports for expansion based on project work. Timing is important as there are impending agreements that will specify cooling loads will indeed be met. HCE will take the lead on this study work to aid in providing the future services being proposed.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR
General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater)

POLICY 10 - EMERGENCY REPORTING FORM

Date: 2011 01 10
Department/Division: W & WW / Environment & Sustainable Infrastructure
Reporter’s Name: Lindsay Reiach
Phone Number: 5662
Buyer: Donna Drozdz
Vendor: Smith & Loveless

Description of Goods/Services Required:
OEM spare parts for existing equipment utilized by Plant Operations

Is there an approved budget for this purchase? □ Yes □ No Value: $95,000.00

Account Number 54720 Dept Id. / Project Id. 510320

Emergency Policy 10
Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.

Negotiation Policy 11
Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

For Negotiation Policy 11 requests, select ONE of the following:

☐ Short Supply
Goods/services are judged to be in short supply due to market conditions.

☑ Sole Source
There is only one known source for the goods/services (sole source).

☐ Bids Exceed Budget or Estimated Costs
The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.

☐ Single Source
A single source is being recommended.

☐ Contract Extension
Extended until:
For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

☐ Expanded Works
Existing PO Number:
Approved construction project has unexpected work arising during construction, does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Expand the cell if required. Attach all other supporting documentation as available.

Plant Operations currently utilize Smith & Loveless process systems, including pumps, classifiers, grit separators, controllers, etc. and other miscellaneous equipment and parts for these S&L systems, at the headworks to the Woodward Wastewater Plant. Consequently, in order to maintain these systems it is requisite that we sole source replacement parts and equipment from S&L as the OEM. Alternate manufacturers of these parts cannot be used as that would require modifications to other parts of the system.

General Manager (Required for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater.)

Approval Signature - Manager of Purchasing

- [ ] Expanded Works
  Existing PO No.: Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Unforeseeable site conditions require addition to PO #62016 in the amount of $30,000. Rain and ground water from heavy rainfall is flowing rapidly and back washing onto the Chedoke Yard grounds and towards the building. It was discovered on Nov 28 that the discharging lines were collapsed and deteriorated and need to be replaced. RFQ was issued to 3 local contractors (Peter Turco, Rankin and Wm Groves) for initial requirements, which Peter Turco was the lowest bid.

Existing PO No.: [ ]
Approved construction project has unexpected work arising during construction, does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

There has been a failure with Pump P5 in the Chiller Plant at Copps Coliseum. In order to meet the users event schedule, the pump motor required immediate replacement. Superior Boiler Works was selected to repair as they are the current High Voltage Electrical Contractor. The P5 Pump motor burnt out and required replacement. Copps had started making ice on Tuesday and therefore the urgency in repairing this pump was immediate.

POLICY 10 - EMERGENCY REPORTING FORM

POLICY 11 - REQUEST FOR USE OF NEGOTIATION POLICY

Date: June 8, 2011

Department/Division: Public Works - Energy, Fleet, Facilities & Traffic

Reporter's Name: Rom D'Angelo

Phone Number: 905-546-2424 x7006

Procurement Contact: Barb Kline - Procurement Specialist

Vendor Name: Toromont

Description of Goods/Services Required:
Replace faulty transfer switch for emergency generator at Fire Station # 6 (246 Wentworth St N). This condition was discovered today while performing the monthly testing of the emergency generator and related systems. The transfer switch is a critical component as it allows the transfer of electricity to the generator during a power outage and reverse. A thorough investigation was conducted by Toromont and it has been deemed the entire switch unit has expired and requires immediate replacement. At this time we do not have reliable backup should there be a power failure.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Recently the Corporate Facilities Management (CFM) section underwent a reorganization. The security guard shacks at the Wentworth Street & Birch Street gates will be automated and the security guard contract will be eliminated. Personnel manning these gates will be in place for another 3-4 weeks. In the meantime, gates, fences, and cameras will need to be installed in order to protect the corporate assets. Superior Door has installed these security features at other City of Hamilton sites. They, therefore, have familiarity with security requirements of CFM, the specific security features employed at other City sites, and are able to meet the Corporate security objectives. Single sourcing to this company will also eliminate the need to hire a consultant to develop detailed specifications while still providing consistency in security features provided. Superior Door has consistently provided quality workmanship in a timely and cost-effective manner. Due to the sensitivity of the layoffs and the recent thefts at 330 Wentworth, a quick turnaround is crucial to mitigate any future asset losses.

Each year, the Hamilton Police Service operates School Safety Patroller Program training for our two local school boards. The 2011 training site requires a facility offering the following features: the ability to park five (5) full sized school buses inside the facility, all at the same time. The "practical" training sessions for 1,100 students require protection from inclement weather, including rain. In addition, the site must also provide a floor plan allowing two (2) separate theoretical learning areas. These areas must hold up to 120 elementary students and their teachers. The training site also requires bathrooms to accommodate a large numbers of children and accessible coolers for their snacks and drink storage. The site requires ample parking and cleanliness suitability to ensure a safe teaching atmosphere for children. The rental of the Ancaster Agricultural Society - Mermit Hall (Ancaster Fair Grounds) located at 630 Trinity Road, RR #1, Jerseyville, Ontario is the only local facility providing these required features.

Plant Operations currently have numerous installations utilizing ITT Flygt process systems, including pumps, mixers, drives, controllers, etc. and other miscellaneous equipment and parts for these ITT systems. Consequently, in order to maintain these systems it is requisite that we sole source replacement parts and equipment from ITT Flygt, as the OEM components. Alternate manufacturers of these parts can't be used as that would require modifications to other parts of the system.

General Manager (Required for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater.)

Specialty sign fabrication is required to correct damage to existing Traffic Control Signs caused by graffiti vandalism. These signs are located on the Lincoln Alexander Parkway on large overhead lane structures. Our current in-house sign fabrication dept is unable to produce signs of this size. A claim has been filed through Risk Management - Claim # 033721. As Graffiti vandalism is a reportable crime in the City of Hamilton, a police report has been filed.

Vendor Name: U-Select-It Controlled Access Product Dispensing Units

Description of Goods/Services Required:
The U-Select-It Controlled Access Point Dispensing unit would be utilized to manage the distribution of medical supplies, equipment and communication assets. The purchase would include two (2) EMS-5 Vending Dispensers and four (4) lockers that have 12 access doors for security of supplies and equipment. The objective is to have greater control over the distribution of consumable medical products in an effort to reduce waste and improve the management of expiry dates. The paramedics are required to use a unique identification number to gain access to the medical supplies and equipment. The software enables the controls on quantities and items to be set based on the classification of the employee and his/her approved access to inventory items. The Policy 11 contains a letter from the manufacturer to confirm the U-Select-it program, as well as all of its associated components. The U-Select-It Controlled Access Point Dispensing units will also accommodate cell phones, pagers, portable radios in an effort to maintain enhanced control over the distribution of communication technology.

Email "Subject" line should include the actual Vendor's Name

Revision date: July 4, 2011
Date: October 28, 2011
To: Policy 11 – Request for Use of Negotiation Policy
Subject: U-Select-It Intelligent Dispensing Solution

EXPLANATION FOR THE PURCHASE
The EMS-5 Controlled Access Point Dispensing unit (Vending Style- Intelligent Dispensing Solution) represents a package of materials including custom designed hardware, software, tracking programs and security measures for single unit dispensing and tracking EMS supplies on the basis of a personal identification number, bar code, magnetic stripe cards biometrics or proximity card protocols and allows for multiple authority levels. The objective of the EMS division is for the Paramedics, Superintendents, Commanders & Deputies to utilize a unique access code and proximity card (already utilized for station access) to obtain permissions to retrieve medical supplies and equipment. The program benefit is to reduce the unnecessary wastage of consumable medical supplies and equipment in addition to hard assets such as portable radios, pagers and cell phones. This will create greater controls on tracking, authorization and maintenance of expensive assets. It will also allow medical consumables to be purchased based on utilization as compared to the previous years recorded spending levels.

CONFIRMATION OF SOLE SOURCE VENDOR & PRICE
The Policy 11 contains confirmation that U-Select-It EMS-5 Controlled Access Point Dispensing unit is available from a single or sole source vendor. The letter confirms that that U-Cap-It program, as well as all of its associated components are a single source product, manufactured, sold, distributed by the U-Select-It Corporation in Des Moines, Iowa, US. The devices are used in a number of US EMS operations as a method to maintain control on inventory and reduce costs. The price includes freight, delivery, installation, set-up by U-Select-It technicians, and configuration of the units, training for Hamilton EMS Deputies/Superintendents/Application Analysts, website control access, and software support for three years and repairs (warranty)
for a three year period. After the three year period, the software support for the EMS 5 Dispensers would be approx. $100 per month with a 5% discount with annual vs. monthly payments. The price includes reasonable brokerage fee (less than $300) and is quoted in US dollars. The price does not include import tax. There will be one EMS-5 Controlled Access Point Dispensing units will be installed at Station 30 and the one at Station 5. The cost for the installation is included in the quotation from the vendor.

REGULATORY COMPLIANCE

The analysis of the Controlled Access Point Dispensing units was conducted as a result of recommendations from the Ministry of Health & Long Term Care accreditation process. The provincial requires that an EMS operator maintains sufficient inventory levels in support of land ambulance operations and contingency requirements. The Controlled Access Point Dispensing units will reduce the waste of medical supplies and equipment and create a higher level of accountability for the materials utilized by paramedics. The software contains reports that track the item, date/time and quantity of medical supplies and equipment utilized by individual paramedic. The Controlled Access Dispensing unit can be program to allow only a certain number of items that could be distributed to each paramedic. For example, in the event of a pandemic influenza outbreak the unit will allow greater tracking of personal protective equipment and distribution. The Controlled Access Point Dispensing unit eliminates the need for a supervisor to be dedicated to the distribution of medical equipment and supplies as the paramedics will have access on a 24/7 basis.

ENHANCED REPORTING & ACCOUNTABILITY

The Controlled Access Dispensing unit has been marketed for enhanced security of controlled substances utilized in the paramedic environment. The Ministry of Health & Long Term Care as made recommendations to the City that enhanced controls for the security of controlled substances should be implemented. The unit allows access to controlled substances (narcotics) only for employees authorized to administer these medications to patients. The software tracks the quantity of medication distributed per paramedic and programs controls on the maximum distribution. The Controlled Access Point Dispenser uses the latest inventory and tracking technology for instant recording, reporting and tracking of medical equipment and supplies. The Controlled Access Point Dispensing unit allows paramedics to instantly access and restocks.
their units 24/7. All withdrawals are cataloged, time stamped and regulated through the
authority level of each person allowed to access these machines. The management team will
receive an email notification every time a controlled substance is dispensed. One person with a
laptop and internet access anywhere in the world can manage a host of Controlled Access Point
Dispensing units at different locations. Once a staff ID has been established, the Controlled
Access Point Dispensing unit can be programmed to require a vehicle number and even an
emergency response number before it automatically dispenses the exact quantity of necessary
ambulance restock items; without any EMS Manager needing to be present. Lockers can be
added to a Dispenser for controlling and recording access to narcotic kits, laptops, radios,
oxogen and even back boards. Storeroom inventory accountability is included so that you can
track expiration codes. The Controlled Access Point Dispensing unit is active 24/7, watching
and notifying managers by its alert system through emails or text messages for instant
notification. Customized usage reports can be automatically sent daily, weekly or whenever for
purchasing, finance & administration and management purposes.

Respectfully submitted,

SENT ELECTRONICALLY

☐ Emergency Policy 10 Use explanation area below to describe the emergency situation and how goods
and/or services were acquired including PeopleSoft requisition number if entered.

☐ Negotiation Policy 11 Complete all sections below, and indicate by checking ONLY the most appropriate
selection, the reason for requesting the use of the Negotiation Policy for this
purchase.

For Negotiation Policy 11 requests, select ONE of the following:
☐ Short Supply
Goods/services are judged to be in short supply due to market conditions.

☐ Sole Source
There is only one known source for the goods/services (sole source).

☐ Bids Exceed Budget or Estimated Costs
The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.

☐ Single Source
A single source is being recommended.

☐ Contract Extension
Extended until:
For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in
issuing a new tender/proposal document.

☐ Expanded Works
Existing PO Number:
Approved construction project has unexpected work arising during construction, does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Expand the cell if
required. Attach all other supporting documentation as available.

A low bed semi-trailer carrying a forklift hit the north west girder of the railroad bridge located at Birch Ave (75 m South of
Burlington St) on Monday October 24, 2011. The collision impact tore apart the bottom flange of the North West girder.
Several riveted connections were broken and three of the pipe support brackets were damaged. It was estimated, by simple
visual inspection, that the damaged bottom flange suffer a loss of at least 50% of its load carrying capacity. The west section
of the bridge was temporarily shored by Dufferin Construction on October 29. The various costs associated with this repair
are expected to be recovered through Risk Management as the damages were the result of a vehicular accident. Police
Report P11-763164.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR
General Manager (for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11
requests that are $100,000 or greater)

Approval Signature - Manager of Purchasing

Procurement Contact: Barb Kinrade - Procurement Specialist
Vendor Name: Horizant Inc.

Description of Goods/Services Required:
To perform the customization, programming, installation and integration of ARCHIBUS Single Sign On which will utilize the IS Active Directory to authenticate users accessing ARCHIBUS. In addition, employee data will be synchronized with the AD database for use with space planning and maintenance services. This project is a precursor to future ARCHIBUS module roll outs such as; Project Management, Meeting Room Reservations, enhanced space planning, employee locator services, emergency preparedness, etc. Single sign on will also streamline the administration of existing ARCHIBUS services as we will rely on existing data and passwords as managed by IS rather than maintaining separate record sets.

Is there an approved budget for this procurement?
[ ] Yes [ ] No

Approved construction project has unexpected work arising during construction, but does not expand the scope.

Horizant is the VAR assigned by the manufacturer. We have a highly customized environment which makes it extremely difficult for other vendors to get to up speed in order to do customization. In addition, existing support contracts with Horizant would render customization by a third party unsupported.

The rear post on hoist #23 at the MTC was leaking hydraulic oil and the cylinder required re-sleeving to repair this defect. The hydraulic oil that is leaking from the rear post is draining directly to ground water as there were never containments built into the rear posts when the MTC was constructed over 25 years ago. This leakage to ground water is an obvious environmental hazard that required immediate attention. I obtained a verbal quote from the contractor who has performed this service in the past and the repair cost is approximately $20,000. This hoist cannot be used at this time due to OH&S issues with a leaking post and as we are headed towards full service in a few weeks we need this repair performed ASAP. The PeopleSoft requisition number used to obtain this service is 68200.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

A single source is recommended for the upcoming year (Nov 1/11 - Oct 31/12) to better service Wentworth Lodge. AutomatedLogic Ontario (formerly TAC Automation & Controls) set up the new building automation system at Wentworth Lodge, including the software requirements. There are still operating issues that need to be refined which would best be achieved by the original installer as they have the most knowledge of how their system should be operating. In addition, their technical support would be more applicable to our on-site staff because of this knowledge and their resources.

Vendor Name: Aerzen Canada Inc.

Description of Goods/Services Required:
OEM spare parts for existing systems and equipment utilized by Plant Operations.

Is there an approved budget for this purchase? [x] Yes [ ] No  Value: $50,000.00

Account Number 53415  Dept Id./Project Id. 510320

For Negotiation Policy 11 requests, select ONE of the following:
[ ] Short Supply
[ ] Sole Source
[ ] Bids Exceed Budget or Estimated Costs
[ ] Single Source
[ ] Contract Extension  Contract No.:  Extended from:  Extended to:
[ ] Expanded Works  Existing PO No.:  Approved construction project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

Plant Operations currently utilize Aerzen Blowers at the Dundas Wastewater Treatment Plant. One of the units has failed and the quoted cost for repair is 77% of the cost of a new unit. Consequently, in order to maintain these systems it is requisite that we sole source replacement parts and equipment from Aerzen, as the OEM. Alternate manufacturers of this equipment cannot be used as that would require modifications to other parts of the system.

There has been a failure in one of the pipes that circulate glycol refrigerant within the ice rink floor at Copps Coliseum. In order to meet the users event schedule, repairs must be initiated immediately as the timeline required to find the leak, break out the concrete, repair the leak and replace the concrete could take several days. The glycol is a hazardous material and requires immediate attention to control the leak and clean up. Because this is a very specialized field, CIMCO has been chosen to carry out the work. CIMCO is the largest and most experienced contractor in the ice rink industry. They were the ice rink contractor for the original installation, have the expertise to carry out the repairs and were able to respond immediately to our needs.

After a year of studying the behaviour & efficiency of council/committee meetings through the expertise of George Rust D'Eye, we have discovered the need for someone with a deeper understanding of "Hamilton" working by-laws and policies. Mr. Christenson has the inside knowledge we need. He will also assist with our government relations work. As with Mr. Rust D'Eye we need an "outside" source as there could be conflict with our city staff/solicitors & clerks as they are part of our governance process. Kevin is a former clerk for the City of Hamilton - now retired.

☐ Expanded Works Approved construction Existing PO No.: ___________________________
  Project has unexpected work arising during construction, but does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Attach all other supporting documentation as available.

The electrical supply and control systems (control equipment and switchgear) for numerous water and wastewater facilities utilize Schneider Electric Products. Schneider Electric as the OEM, has bought numerous other products (see attachment), and provides preventative maintenance, replacement parts, on-site testing and repair services. Consequently, in order to maintain their equipment it is requisite that Plant Maintenance sole source the preventative/repair maintenance and parts to the OEM. Alternate manufacturers or service providers cannot be used as they do not provide the replacement parts and would not have the specialized testing and repair equipment or product knowledge.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater)

The overall depth of the retained soil system had to be increased by 1.50 m as passive cracks were found at the foundation substrate during excavation on September 26th. Pete MacCallum (PMC) recommended placing a 100 mm thick concrete bedding to correct the geotechnical distress and properly support the high performance bedding blanket (filter). The total length of the existing wall was increased by 5 meters at the North West end to accommodate the spillway. A change request to install a geotextile blanket to prevent fine migration was approved as recommended by PMC on September 28. One hundred fifty (150) cubic meters of fill material placed at the outer side of the wall had to be removed due to a wash-out after a severe rain event on October 20. Dennis Kern, Senior geotechnical engineer from PMC, recommended modifying the original design and replacing the exterior un-compacted fill with rip-rap material in order to guarantee soil stability downhill.

A low bed semi-trailer carrying a forklift hit the north west girder of the railroad bridge located at Birch Ave (75 m South of Burlington St) on Monday October 24, 2011. The collision impact tore apart the bottom flange of the North West girder. Flagging and/or protection is required while performing work on or near property owned by Southern Ontario Railway (SOR). SOR is the only approved source to provide this service. The various costs associated with this repair are expected to be recovered through Risk Management as the damages were the result of a vehicular accident. Police Report P11-753164.

POLICY 10 - EMERGENCY REPORTING FORM

Date: 2011 11 01
Department/Division: Public Works - ESI - Water & Wastewater Operations
Reporter’s Name: Lindsay Reiach
Phone Number: 5662
Procurement Contact: Donna Drozdz - Senior Procurement Specialist
Vendor Name: Ontech Machining Inc.

Description of Goods/Services Required:
Provide all Labour, Equipment and Materials necessary to repair damaged electrical slip rings for High Lift Pump #2

Is there an approved budget for this purchase? [ ] Yes [ ] No Value: $6,500.00

Approval Signature - Procurement Manager

On Wednesday, September 28, 2011, Plant Operations experienced operational problems with the #2 pump in the High Lift. Upon investigation it was determined that the motor slip rings have “hot” spots which causes for dangerous arcing and sparking activity when the rotor is rotating or moving. Due to the upgrade construction activities at this facility Plant Operations has an established protocol to keep a minimum of 4 pumps operational at all times. Currently, 2 pumps have been given over to the contractor for change out and have not been fully commissioned for use. Therefore in order to maintain the integrity of the facility and our ability to supply potable water to the city it is requisite that we effect all necessary repairs as quickly as possible. Consequently, Plant Operations is now requesting confirmation of Emergency Works, pursuant to the City’s Purchasing Policy #10, to obtain the services of a contractor to effect all necessary repairs and to restore full operational integrity of the pump.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR
General Manager (for ALL Policy 10 requests of $5,000 or greater and for Policy 11 requests that are $100,000 or greater)

Nedlaw Living Walls was contracted by Kemp Construction to install the Living Wall at The Central Branch of The Hamilton Public Library. It was agreed that Nedlaw Living Walls provide a full service maintenance program and that would be issued as a separate contract. The preventative maintenance program involves review of the system operation and performance of routine maintenance to ensure efficient operation no less frequently than once every month with a total of 12 site visits per year.

- Emergency Policy 10: Use explanation area below to describe the emergency situation and how goods and/or services were acquired including PeopleSoft requisition number if entered.
- Negotiation Policy 11: Complete all sections below, and indicate by checking ONLY the most appropriate selection, the reason for requesting the use of the Negotiation Policy for this purchase.

For Negotiation Policy 11 requests, select ONE of the following:

- **Short Supply**
  - Goods/services are judged to be in short supply due to market conditions.
- **Sole Source**
  - There is only one known source for the goods/services (sole source).
- **Bids Exceed Budget or Estimated Costs**
  - The lowest bid meeting specifications is excessive in total cost or substantially exceeds the estimated cost.
- **Single Source**
  - A single source is being recommended.
- **Contract Extension**
  - For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.
- **Expanded Works**
  - Approved construction project has unexpected work arising during construction, does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Expand the cell if required. Attach all other supporting documentation as available.

Electrical supply and control systems for numerous water and wastewater facilities are controlled utilizing Cutler-Hammer control equipment and switchgear. Cutler-Hammer as the OEM, has been bought out by Eaton, and provides preventive maintenance, replacement parts, on-site testing and repair services. Consequently, in order to maintain this equipment it is requisite that Plant Maintenance sole source the preventative/repair maintenance and parts to the OEM. Alternate manufacturers or service providers can't be used as they can't provide the replacement parts and would not have the specialized testing and repair equipment and product knowledge.

**General Manager** (Required for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater.)

**Approval Signature - Manager of Purchasing**

Once completed and proper approvals have been obtained, please email this form as a .xls file to 'Purchasing Policy 10 & 11' at purchasi@hamilton.ca

Revision date: 12 November 2009
Policy 11 requests must be obtained before a vendor is engaged. This includes when a commitment has been made to a vendor, services have commenced/completed or goods have been ordered/received. If not, the procurement will be considered Non-Compliant.

The Housing Services Division moved to 350 King St. East on October 17, 2011. The week prior to the move, the lease was still being negotiated with the landlord. City Housing Hamilton. One of the issues being negotiated was whether cleaning services would be included in the lease costs or not. Therefore, it was unknown whether the Housing Services Division would be provided with cleaning services as part of the lease costs or whether it would be necessary to complete a tender for cleaning processes. Given the lack of time, the only recourse was to utilize Tisdale Cleanall Cleaning Services that was providing cleaning services to the rest of the First Place building. The office had undergone construction and required a cleaning prior to staff moving in. In retrospect, a Policy 11 should have been submitted prior to Tisdale providing the service. A tender for cleaning services was completed by the City’s Facilities Division. The successful proponent was not Tisdale but Service Master who had the lowest bid. There was a misunderstanding that cleaning services may be included as an addendum to the lease and that cleaning services may continue with Tisdale. This was a wrong

Revision date: November 1, 2011
RE: Tisdale Cleanall Cleaning Service – Policy 11

Provided is a brief explanation identifying the conditions that make it necessary to use this policy.

The Housing Services Division moved to 350 King St. East on October 17, 2011. The week prior to the move, the lease was still being negotiated with the landlord, City Housing Hamilton. One of the issues being negotiated was whether cleaning services would be included in the lease costs or not. Therefore, it was unknown whether the Housing Services Division would be provided with cleaning services as part of the lease costs or whether it would be necessary to complete a tender for cleaning processes.

Given the lack of time, the only recourse was to utilize Tisdale Cleanall Cleaning Services that was providing cleaning services to the rest of the First Place building. The office had undergone construction and required a cleaning prior to staff moving in. In retrospect, a Policy 11 should have been submitted prior to Tisdale providing the service.

A tender for cleaning services was completed by the City's Facilities Division. The successful proponent was not Tisdale but Service Master who had the lowest bid. There was a misunderstanding that cleaning services may be included as an addendum to the lease and that cleaning services may continue with Tisdale. This was a wrong assumption. Pat DiLeonardo has asked that we continue to use Tisdale until January 3, 2012 so that arrangements can be made with Service Master to start the service.
NOTE for all Policy 11 requests: All requisite approvals must be obtained before a vendor is engaged. This is when a commitment has been made to a vendor, services have commenced/completed or goods have been ordered/received. If not, the procurement will be considered Non-Compliant.

For the extension of a contract which has expired and unforeseeable circumstances have caused a delay in issuing a new tender/proposal document.

☐ Expanded Works  Existing PO Number:  
Approved construction project has unexpected work arising during construction, does not expand the scope.

Provide a brief explanation identifying the conditions that make it necessary to use this policy. Expand the cell if required. Attach all other supporting documentation as available.

Plant Operations currently have numerous installations utilizing ITT Flygt process systems, including pumps, mixers, drives, controllers, etc. and other miscellaneous equipment and parts for these ITT systems. Consequently, in order to maintain these systems it is requisite that we sole source replacement parts and equipment from ITT Flygt, as the OEM components. Alternate manufacturers of these parts can’t be used as that would require modifications to other parts of the system.

General Manager (Required for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater.)

Approval Signature - Manager of Purchasing

Once completed and proper approvals have been obtained, please email this form as a .xls file to Purchasing Policy 10 & 11 at purchase@hamilton.ca
POLICY 10 - EMERGENCY REPORTING FORM

Councillor Report PW08038(a) recommendations as approved:
a) That the General Manager of Public Works or his designate be authorized and directed to enter into a contract subject to acceptance with the General Manager of Public Works and Legal Services with Glentel to provide HSR with a replacement Radio Communications solution and automated next stop passenger information as approved by Council on April 23, 2008 in Public Works Committee Report 08-007; Contract with Glentel includes maintenance of the HSR Radios/AVL/GPS/ASA system for five years with the option of 5 years extensions. This is for work beyond the maintenance contract to remove equipment from retired buses and reinstall the equipment in new small buses. Because this is a first time installation into a new model of bus, it requires additional fabrication work.

Signatures: Departmental Director (for Policy 11 requests that are under $100,000) OR
General Manager (for ALL Policy 10 requests REGARDLESS OF AMOUNT and for Policy 11 requests that are $100,000 or greater) 

Approval Signature - Procurement Manager
