(e) PRESENTATIONS (Item 6)

(i) Employment Systems Review Presentation – Turner Consultants (Item 6.1)

General Issues Committee – January 15, 2014
Tana Turner of Turner Consultants addressed Committee with the aid of a PowerPoint Presentation.

Ms. Turner provided an overview of the methodology and process behind the Employment Systems Review.

Committee members discussed the barriers in terms of the applying to positions in the City of Hamilton. They discussed the difficulty in being considered for positions without the relevant experience which can be harder for those with disabilities to access.

Committee members discussed the difficulties of walking into an interview and thinking that they are being judged because of their disability. They outlined concerns that the potential employer may have concerns around accommodation which could place those with disabilities at a disadvantage.

Committee members discussed the problem of constructing a new building and not making the workplace accessible to everyone. In this way they indicated that by not planning to accommodate accessibility at the time of construction the City may be encouraging a latent type of discrimination. They indicated that not providing an elevator to get to a workspace sends the message to both applicants and interviewers that someone in a wheelchair is not an ideal candidate.

Committee members discussed accommodations to those that are injured or become disabled after they are already employees. They expressed concerns around ensuring that the return to work procedures are followed and that the correct accommodations are made.

The presentation respect Employment Systems Review, was received.

(e) NEW BUSINESS (Item 7)

(i) Sub-committee Activity in 2014 (Added Item 7.1)

Due to the increased work load on staff in Access and Equity the Integrated Standard Sub-committee will no longer be meeting and the frequency of other Sub-committee meetings may be reduced.

Kim Nolan asked for an update on the requests sent to Parking Enforcement to send a representative to discuss the issue of tickering in the downtown area of vehicles with signs that indicate that a Care Giver, Nurse or Support Worker is on duty. The Committee Clerk indicated that a request had been sent to the appropriate Planning staff and no response had been received.
