Information:

Brick is used extensively in the downtown core mainly for its aesthetic value in developing and fulfilling streetscaping and beautification needs. In order to create a replacement plan, the following tasks are required:

1. create inventory,  
2. condition assessment,  
3. create replacement strategy coordinated with future associated capital works,  
4. estimate replacement value,  
5. identify implementation period, and  
6. address each year as part of the Capital budget deliberations.  

Staff has started the inventory and condition assessment. It is proposed that a detailed report will be provided to the General Issues Committee as part of the 2012 budget presentations.

Vision: To be the best place in Canada to raise a child, promote innovation, engage citizens and provide diverse economic opportunities.
