Daniel Barnett, Planning Technician, addressed Committee with the aid of a PowerPoint presentation respecting Report PED11147. Mr. Barnett's comments included, but were not limited to the following:

- The property in question is currently zoned commercial in the City's official plan.
- The application is to change the zoning to permit an outdoor licensed patio.
- To establish the patio the applicant has previously applied for a minor variance, which was approved the Committee of adjustment. It was subsequently appealed to the OMB and the decision reversed.
- A restaurant resides on the property with a patio in the front (6 seats) and an unlicensed patio in the back (36 seats).
- Any change in zoning would bring with it restrictions regarding the use of the patio, as well as measure to reduce noise (eg noise attenuation fencing, 11:00 pm curfew, no outdoor bar).
- Currently there is fencing surrounding the property and a five-car garage, which assists to damper noise from the patio.
- The current 36 seat patio is in existence but unlicensed.

The Committee asked questions of Mr. Barnett. The discussion included but was not limited to the following:

Councillor McHattie was present at Committee for the discussion regarding this item.
Committee asked if the City has a policy surrounding the use and construction of commercial patios, and if we do not, suggested that the City study to look at the issues surrounding commercial patios. Staff suggested that a broad policy does not always fit each situation, and would rather look at each case individually.

Committee had concerns that a decision to rezone the property would set a new precedent for other commercial, or food service industry businesses.

Committee had concerns with the noise that may be generated from a licensed patio. Staff indicated that the patio was already in existence and some noise absorption features are already present, and that the stipulation which accompany the new zoning regulation, should mitigate any further noise generation.

Committee asked if the local Business Improvement Association (BIA) and Kirkendale Neighborhood Association was consulted regarding this matter. Staff indicated that consultation was held with the Neighborhood Association and the main concern is respecting the liquor licensed being transferred to another business owner.

Committee asked if any noise studies have been performed in the area. Staff stated that no noise studies have been done, but that staff feel confident that with the current landscape and new provisions that noise should not be an issue.

Committee asked if the garage were to be torn down, what could that area be used for. Staff indicated that it would have to either be reconstructed as a garage, or parking.

Committee was concerned that there was not a sufficient buffer between the patio and neighboring properties. Staff indicated that neighboring properties had a sufficient buffer area and that the garage behind the patio provides a fifty-foot buffer.

On a motion the presentation by Mr. Barnett, respecting the Application for Amendment to the City of Hamilton Zoning By-law No. 6593 for Lands Located at 252-254 Locke Street South (PED11147), was received.

John Ariens, of IBI Group, addressed the Committee respecting Report PED11147. Mr. Ariens’ comments included, but were not limited to the following:

- The restaurant is a fine dining establishment owned by Mr. Bernstein, which does not attract a loud group of patrons. The rezoning will allow customers to enjoy a glass of wine with dinner.
- The patio does not abut any residential lands and the garage provides both a visual and sound buffer.
- The owner is in agreement with the conditions set on the patio.
- The BIA wrote to the OMB in support of the application.
A meeting was held with neighbors, concerns were surrounding the
generation of noise and lighting. Through consultation, many of the
concerns were put at ease.

The owner of the restaurant is in support of the staff recommendation,
and is thankful for their work.

The Committee asked questions of Mr. Ariens. The discussion included
but was not limited to the following:

- Committee was concerned with the transfer of the liquor license,
specifically related to the small amount of public involvement that
goes into the transfer. If the restaurant were to change hands, the
new owner may not run the same type of establishment. The agent
suggested that the City differentiate between different types dining
establishments. Alternatively, he suggested that the City may want to
grant a temporary use By-law for a three year period which can be
extended.

- Staff felt the suggestion for a temporary use By-law had merit. Staff
also indicated that a temporary use By-law would rest with the
property and not with the owner of the establishment, meaning it
would be transferable to any future owners of the property.

- Mr. Bernstein, indicated that is was his intension to keep the
restaurant as a fine dining establishment.

On a motion the presentation by Mr. Ariens respecting the Application
for Amendment to the City of Hamilton Zoning By-law No. 6593 for

Rainer Schneider, 321 Charlton Street West, address the Committee. His
Comments included but were not limited to the following:

- Has been a resident at the address noted above since 1993.

• He does not believe that the garage will proved a sufficient sound buffer.
• As a resident, he has concerns that this rezoning will create a trend in the neighborhood.
• Thanked the Committee for addressing many of the concerns he had coming into today.

• The Committee inquired if the restaurant has every been a significant source of noise. Mr. Schneider indicated that the noise has previously been at a reasonable level.
• The Committee asked if a market assessment of the property has been done, and if the approval of rezoning would cause a value decrease. Mr. Schneider indicated that no formal evaluation had been completed.
• Committee asked staff if they had received any similar rezoning applications in the vicinity. Staff indicated that no applications had been received.

On a motion the delegation by Rainer Schneider, respecting the Application for Amendment to the City of Hamilton Zoning By-law No. 6593 for Lands Located at 252-254 Locke Street South (PED11147), was received.
