A lengthy discussion ensued and members of Committee raised questions and concerns regarding Residential Care Agreements, tenant education, differences between municipally subsidized facilities and provincially/federally funded Residential Care Facilities and the concept of transferring subsidies to individuals. It was noted that a staff report addressing the issue of moving subsidy from residents to individuals was scheduled to come back to Committee at the end of the year.
On a motion (Merulla/Jackson), Committee approved the following recommendation;

(a) That the presentation by Henry Aviles and Klonowski be received;

- Written Tenancy Agreement

A copy of Mr. Weingartner’s PowerPoint presentation was distributed to members of Committee.

A discussion ensued and members of Committee raised the following questions and/or concerns; commended the police task force which is currently in place, noted the importance if including youth between the ages of 12 – 19, include all youth not just troubled youth, proceeding with the intent of implementing a Youth Advisory Committee for the next term of Council and the importance of addressing culture & recreation issues within the City.

Chair Bratina relinquished the Chair to Councillor McHattie in order to introduce a motion respecting soil contamination in Hamilton parks.

That Public Works staff be directed to investigate and prepare an inventory of parks within the City of Hamilton where there is a suspicion of soil contamination;
And that staff be requested to consider remediation methods for these parks (eg. similar to those undertaken at Beasley Park) and report back to Public Works Committee.

Committee approved the motion.

Councillor Bratina resumed the Chair.

Discussion regarding the implementation of a City-wide Youth Advisory Committee ensued.

Councillor Jackson supported the creation of this Advisory Committee and suggested that the City should be ready to advertise and proceed with this initiative following the election this fall.
