Ms. Mary Gallagher,
The Mayor’s Office,
City of Hamilton.

Dear Ms Gallagher,
Members of Physicians for Global Survival’s Hamilton Chapter were very pleased to meet with the Mayor on July 23rd. We discussed a range of issues connected with the threat to cities presented by the large, continuing global arsenals of nuclear weapons, thousands of which are on high alert, and vulnerable to being triggered by accident. The Mayor was happy to re-endorse the Mayors for Peace Campaign (endorsed by his predecessor) and sympathetic to the goals of the International Campaign to Abolish Nuclear Weapons (ICAN) and its cities component, Urban Centres Are Not Targets (UCANT). He did, however, seek consultation with the Council on these latter issues and therefore suggested that we present to the Committee of the Whole at an upcoming meeting.

We are happy to do this. We would appreciame some guidance on time allocation and whether we can use visual aids.

Many thanks,
Joanna Santa Barbara, MB.BS, FRANZCP, FRCP(C), O.Ont..
