A discussion followed and staff responded to questions posed by the Board members.

Staff was directed to prepare a report after the software for the web posting of food inspections is purchased and provide a demonstration of the program at a future Board of Health meeting. An examination of the three card system vs the current two card system is to be included in the report.

Some of the comments made by the Board include but are not limited to the following:

- Congratulations to Public Health staff with respect to their handling of the West Nile Virus issue;
- The data collected by the government-sponsored screening on lead in drinking water should be shared with the Municipality;
- Before the two years are up, the City should request that the Province maintain the 100% funding for the small water program, as this is a mandated service, and not reduce the funding to 75% after two years as it proposes;
- The City should consider increasing the Public Health Department budget in 2009;
- Has the City been keeping up with accreditation?
- A global picture of the number of FTE’s needs to be considered prior to final approval.

Councillor Jackson indicated that he is opposed to merit increases for staff.

Councillor McHattie advised that the Pesticides Sub-Committee will be presenting a Report to the Board of Health sometime prior to the budget deliberations.
Councillor Jackson requested that staff provide an update at a future Board of Health meeting on what has been done to date with respect to implementing the Justice Campbell recommendations.

Tom Hewitson was requested to confirm whether the $15,000 enhancement being proposed for the website posting was included in the 2.5% department budget increase and the 6% global projected budget increase.

The Board received the presentation.

The meeting adjourned at 11:20 a.m.

Respectfully submitted,

Mayor F. Eisenberger, Chair
