Mr. Mallard explained that the “H” removal applies to the northern portion of the site, where a 60 bed women’s shelter and 24 unit apartment complex are to be built. The south-west quadrant of the site will retain the “H” Holding zoning category at this time.

Allan Whittle, Good Shepherd, advised that he supported the staff report.

Barney Daniels, Strathcona Community Council, addressed Committee and noted that while his group has been involved in discussions, there were many areas of uncertainty which remained, including the status of the funding for the second part of the shelter proposal, and the expected time frame for construction. He suggested these uncertainties should be clarified before the removal of the “H”.

Committee discussed the matter and had additional information supplied by staff.

Mr. Mallard provided additional details about the funding arrangements and confirmed that if funds did not get approved for the shelter for abused women, then the use of the existing facilities would continue. He noted that the first part of the shelter building had been designed as a free-standing structure, or could have the second shelter added to it.

Chair Pearson gave an update on the progress of the matter. She explained that Mark Preece family house is working through the various required processes, the next of which is an application for Trillium funding. Chair Pearson confirmed that the matter would be back before Committee in early 2007.

11.4 **260 King Street East**

Councillor Bratina provided the background to this issue and explained that financial conditions had been placed on the approval of the demolition permit for the site, in February, 2006. Councillor Bratina continued that funding for the new building had now been approved by the City of Hamilton under the Downtown Residential Loan Programme as well as through the Provincial and Federal Governments under the Strong Start component of the Canada-Ontario Affordable Housing Programme. Construction of the building has started. He explained that the requirement for the applicant to have a bond for $340,000 was onerous, and no longer required.

Committee agreed that the financial conditions imposed were no longer necessary and also agreed that Council should be requested to re-consider this matter and remove the conditions.

By Motion, Committee directed the Clerk to bring forward the required information for a re-consideration of this item to the next Council.

11.5 Councillor Braden noted the difficulties being faced regarding the approval of intensification across the City. He suggested the City should be intentional here, to educate the public and to lead by example. Councillor
Braden suggested that a competition for good higher density design could be carried out by the Hamilton-Halton Homebuilders Association.

Councillor McHattie agreed that there should be a focus on intensification, and asked for an update regarding the special Committee which was agreed upon as part of the implementation of GRIDS.

Ms. Coveyduck responded that staff has a strategy in place for this group as part of the 2007 Budget process and agreed that public education was important.

11.6 Councillor Mitchell expressed concern that the issue of adaptation in the rural areas between new serviced residential development in areas such as Mount Hope, Winona and Binbrook, and older, un-serviced residential development, was not being addressed. He said this issue needed to be reviewed, as problems arise, when the older areas are affected by new development but are not permitted to hook into the new services and suggested that this was a project the Mohawk planning students could look at.

11.7 Councillor Bratina advised that the final report regarding VIA Rail was nearing completion and should be ready in November. He said the report would confirm the reasons for locating the new VIA Rail Station in Downtown Hamilton.

Councillor Bratina advised that as previously directed by Committee, he and Councillor Bruckler had met with the Mayor of Welland about the potential extension of GO rail service from Toronto to Welland.

11.8 Councillor Whitehead noted a concern regarding new residential development in older areas, and how existing landowners can be included. It was agreed that the Councillor would meet with staff to review this.

11.9 Paul Mallard introduced a new member of the Planning staff - Jennifer D’Andrade. Committee welcomed Ms. D’Andrade.
