The following staff recommendation was discussed;

(a) That City Council inform the Ministry of Municipal Affairs and Housing that the City supports the six proposed criteria, in principle, but would request the Ministry to include specific requirements (i.e. what groups, minimum number of public meetings) for public consultation to ensure a transparent and equitable process across all municipalities.

(b) That Report PED08108 be forwarded to the four Conservation Authorities for their information.
(c) That the request of Council of March 26, 2008, to consider correspondence from the Hon. Jim Watson, Ministry of Municipal Affairs and Housing, regarding the Growing the Greenbelt – Consultation 2008, be identified as complete and removed from the Economic Development and Planning Outstanding Business List.

Joanne Hickey-Evans gave a brief overview of the report, and explained that the Ministry is proposing that municipalities could request to the Ministry the addition of areas for inclusion in the Green Belt. This proposal does not allow individual members of the public to propose additions. She noted that the process did not deal with any lands which are currently included in the Green Belt.

- variation in densities across City, preservation of character of areas
- quality of jobs as well as numbers of jobs

Council – May 14, 2008
location of office space
- use of incentives to meet Provincial targets
- what will happen if municipalities do not meet their targets
- where will commercial properties locate

The consultants provided the following information:

- Downtown Hamilton is about 200 p/j/h
- Downtown Toronto is about 400 p/j/h
- Downtown Stoney Creek is about 100 p/j/h
- There are various ways of providing increased density, building higher is just one way, there will be visuals at Public Open Houses
- There is still going to be variation in densities across City
- New office space should locate Downtown Hamilton, not in industrial areas
- Province sets targets, municipalities must strive to achieve them through Official Plan policies. Province will be monitoring results, may adjust their policies in response.
- More commercial areas are needed, and details of these, and other issues will be included in the Secondary Planning process.

The consultants added that public input will be sought through Public Information Centres, and staff confirmed that these would be held across the City.

Staff will send dates/times of the Public Information Centres to the Ward Councillors, when their sessions are coming up.

Committee made the following directions respecting the upcoming Public Information Centres:

- need to include visuals for increased density proposals
- need to state clearly that required infrastructure will be in place before major new development happens
- more detail, including whole City, Conservation areas, will be included on mapping for Public Information Centres.

Whereas, given that 41 real property assets remain with an assessed 2005 value of approximately $3.5 million, commitment and priority must be given to the Real Estate Section of the Planning and Economic Development Department to divest in the sale of these non-programmed assets; and

Whereas, the City is losing lost revenue opportunities and increased tax assessment due to current insufficient staff resources in the Real Estate Section of the Planning and Economic Development Department to be able to give priority to the sale of the real property assets within the Hamilton Beach Area

By Motion (Mitchell/Pearson), Committee waived the rules to permit the item to proceed as a Motion. Councillor Ferguson requested that his opposition to waiving the rules be recorded.

Councillor Pearson explained the reasoning behind the Motion.

Councillor Ferguson expressed concern about hiring an additional staff person, and how the increase in FTEs has continued since amalgamation. He requested if an additional staff member be used for this purpose, but Mr. McCabe explained there was no-one available. Mr. McCabe confirmed that the position would be temporary and would end when the properties in question had been sold.

Committee approved the Motion. Councillor Ferguson requested that his opposition be recorded.

Councillor Pearson noted that she would work with Councillor Collins on the matter, and report back to Committee, as appropriate.

Eramosa Karst Lands (Added Item)

Councillor Clark raised a concern respecting information he has received from the Province, regarding the City’s future plans for the area. He suggested that staff be directed to review this land for future open space use.

On a Motion (Clark/Duvall), the following direction was given to staff:

That staff consider the options available for the future of the feeder areas of the eramosa karst area, including its use as open space and the planning applications needed, and report back to Committee.

New City Website Section for Public Meetings, Open Houses and other public gatherings

Committee then discussed the possibility of adding a special section to the City web-site, to have one place where all the City public meetings, open houses and public sessions be included, to permit the public to see all these events in one place. Councillor Mitchell added that this would also help Councillors and staff to plan their meetings, and should become a requirement for all staff to use.

On a Motion, the following direction was given to staff:

That staff investigate implementing a new section on the City website where all City Public Meetings, Open Houses, Public information Sessions, and associated meetings, would be included, and where all departments would post relevant notices, to allow citizens to have one site where all public meetings are displayed together, and to report back to Committee.
