3. HSR Bus Loop Located at McMaster Children’s Hospital (Item 4.1 – February 27)

Whereas Hamilton transit riders have been able to disembark at the McMaster Children’s Hospital (formerly McMaster University Medical Centre) for decades;

And Whereas removing the transit stop from the hospital entrance to Main Street would necessitate thousands of additional pedestrian road crossings at one of Hamilton’s busiest intersections;

And Whereas the City of Hamilton, Hamilton Health Sciences and McMaster University have celebrated a beneficial working relationship for years, a relationship that has never been more important than today.

Therefore Be ItResolved:

**Recommendation amended as highlighted:**

Whereas, the Ministry of Health & Long-Term Care has provided 100% provincial funding for Needle Exchange Program Supplies to support the purchase of needles and syringes, and their associated disposal costs since 2010;

And whereas Public Health Departments across Ontario, including the City of Hamilton, have experienced pressures as the actual cost for needles has exceeded the funding provided by the province and funding levels for this program have remained capped since 2011;

And whereas for 2014, public health units have been asked to include actual costs for the delivery of this program in order to assess the funding requirement for the program;

Mayor Bob Bratina
Members of Hamilton City Council
Hamilton City Hall
2nd Floor – 71 Main St. West
Hamilton, ON
L8P 4Y5

Dear Mayor Bratina and Members of Hamilton City Council:

I am writing to you to provide an update as to the status of the three-way business relationship between Theatre Aquarius, Opera Hamilton, and the City of Hamilton as you consider the implications of the recent loss of Opera Hamilton to our city.

As you may be aware, the loss of Opera Hamilton has left Theatre Aquarius in a precarious financial position, as our company is faced with unpaid debts to date of approximately $83,324.00. Moreover, while we have been successful in avoiding the labour costs associated with Opera Hamilton’s final show in April of 2014, we have been unable to find another production to occupy Theatre Aquarius at that time. It is very likely that Theatre Aquarius will therefore also be out the total facility fee owed to it by Opera Hamilton for the final show, being $18,333.33, bringing the total financial impact on Theatre Aquarius to $101,657.33. Theatre Aquarius has previously provided the City with a summary of the serious financial impact on Theatre Aquarius as a result of Opera Hamilton’s decision to cease its operations.

Below is a background summary outlining the current situation.

Background: In 2011, Theatre Aquarius offered Opera Hamilton an opportunity to perform its 2011-12 season at The Dofasco Centre for the Arts. Theatre Aquarius viewed the opportunity as a positive, strategic step towards becoming a centre for the performing arts in Hamilton.

Throughout 2012, Opera Hamilton was late in meeting its financial labour and rental obligations to Theatre Aquarius. Opera Hamilton’s debt obligation had been chronic for more than a year, exposing Theatre Aquarius to increased financial burden. It has also come to light that HECFI experienced similar late payment issues when Opera Hamilton performed at Hamilton Place resulting in late expenses being deducted from the annual Municipal Grant to Opera Hamilton.

For the 2012-2013 Opera Hamilton season, Theatre Aquarius agreed to allow Opera Hamilton to continue performing at The Dofasco Centre for the Arts upon the condition that Opera Hamilton request and receive permission from the City to sign over its 2013 Municipal Grant directly to Theatre Aquarius to cover all costs associated with Opera Hamilton’s rental of our venue (including labour costs). This arrangement ensured that Opera Hamilton would continue to provide a season of opera for its patrons.
and Theatre Aquarius did not have to act financially on behalf of Opera Hamilton, keeping Theatre Aquarius sheltered from any potential risk of financial viability.

2013-2014 Opera Hamilton Season: As per past practice and prior to entering into an agreement between Theatre Aquarius and Opera Hamilton for Opera Hamilton's 2013-2014 season, both Opera Hamilton and Theatre Aquarius wrote to the City requesting that Opera Hamilton's Municipal Grant be paid directly to Theatre Aquarius. Theatre Aquarius agreed to proceed with the historical arrangement based upon the City's response that "as per previous years, the City continues to be agreeable to forwarding their 2014 grant to Theatre Aquarius in payment of any outstanding debt and/or future payments for services rendered."

As a not-for-profit cultural arts organization, Theatre Aquarius has neither the financial capacity nor the ability to absorb the financial impact of the ceasing of operations of Opera Hamilton. As you may well appreciate, the crisis that has emerged from Opera Hamilton has now become a crisis for Theatre Aquarius. It is our sincere hope that this background information has provided you with clarity, and we look forward to the City's response at the earliest convenience.

Should you have questions or concerns, please do not hesitate to contact Lorna Zaremba, General Manager of Theatre Aquarius, (905.522.7815 x223) for further information. Thank you for your consideration of this matter.

Yours sincerely,

Jon Jurus
Chair, Theatre Aquarius Board of Directors

Hamilton Heritage Conservation Grant Program (HHCGP)

1.0 Program Description

The Hamilton Heritage Conservation Grant Program (HHCGP) is intended to provide financial assistance in the form of matching grants between $1,000 to $5,000 for the conservation and restoration of cultural heritage resources. The objective of the Hamilton Heritage Conservation Grant Program is to assist in the on-going conservation of heritage properties designated under the *Ontario Heritage Act* that are not eligible for the Hamilton Heritage Property Grant Program (HHPGP).

2.0 Terms of the Program

2.1 Grant Information

1. The grant is contingent on properties being designated under Parts IV or V of the *Ontario Heritage Act*.

2. An application fee of $75 is to accompany the application. The rate of the fee may be changed from time to time as approved by City Council.

3. The grant is conditional upon a Heritage Permit; or easement approval; or other City approval, being issued for the heritage component.

4. The grant is conditional upon all required planning and building code approvals.

5. Improvements commenced prior to submitting an application are ineligible. Improvements commenced after submitting an application, but prior to application approval, are undertaken at the applicant’s risk, as funding may be refused.

6. The Urban Renewal Section, in consultation with Planning staff, reserves the right to recommend works that are integral to the preservation of the building required to preserve/conserve the heritage features.

7. The grant amount will total a minimum of $1,000 to a maximum $5,000 per municipal address, identifying multiple and separate units and entranceways per year, subject to available funding. The awarded grant amount will total one half the lesser of either the actual eligible project cost (cost as outlined in the final invoices for the completed project) or the estimated eligible project cost (estimated cost as identified on the Hamilton Heritage Conservation Grant Program application form).

8. Work completed must comply with estimates, and work proposed and identified within the application unless previously approved by the Urban Renewal Section. City staff will visit the site to ensure that the work has been completed in conformity with the conditions of the grant approval.
9. At the sole discretion of the Manager of Urban Renewal, partial payments for works completed can be processed consistent with the payment process described above.

10. At the sole discretion of the Manager of Urban Renewal, the grant cheque can be made jointly payable to the applicant and the contractor if such a request has been received from the applicant.

11. The grant is not transferable upon sale of the property.

12. Properties eligible for the Hamilton Heritage Property Grant Program are not eligible for this grant program.

13. The grant may be received by an owner in conjunction with approval of a loan under the Hamilton Community Heritage Fund Loan Program, provided that funding under these programs will not fund the same work.

14. Approval of the grant application is at the absolute discretion of the City and subject to the availability of funds.

15. Without limiting the discretion as set out in paragraph 14 herein, the City Council, whether or not an Applicant satisfies the requirements of the Program, may reject any application received from an applicant where, in the opinion of Council, the commercial relationship between the City and the Applicant has been impaired by, but not limited to, the applicant being involved in litigation with the City. Applicants are individuals, corporate entities and individuals behind the corporation (Officers/Directors/Shareholders).

16. A successful applicant will enter into an agreement with the City containing, but not limited to, the terms and conditions set out in the program description.

2.2 Submission Requirements

Prospective applicants must consult with Planning staff as early as possible in the process of planning a project. This pre-consultation is required to determine eligibility, avoid delays in the processing of an application, and determine if a Heritage Permit is required.

Prospective applicants should also discuss their proposal with representatives from Building Services and the Planning Division to determine if there are regulations that require additional permits or approvals.

Prospective applicants shall then submit a Hamilton Heritage Conservation Grant Program application form, as well as other required information. The types of information required with each grant submission include, but are not limited to:

- A Heritage Permit application form and/or a Heritage Permit approval letter;
• Photographs of the project site and of the features showing what and where the work will take place;

• Copies of any relevant historical documentation, including historical photographs or illustrations;

• Drawings, specifications or descriptions (as necessary) that adequately illustrate the scope, type of work and location as proposed. Depending on the scope of the work, drawings prepared by the property owner may be acceptable. However, should an architect or consultant be retained, detailed drawings are requested;

• A brief summary of the overall project budget, with eligible conservation work clearly itemized;

• At least two (2) competitive cost estimates for all labour and materials involved in the proposed work unless there is only one local specialized supplier of a particular product, trade or service. Although it is not mandatory, applicants are encouraged to select suppliers, contractors and/or trades people with demonstrated experience with heritage properties. Please note a contractor licensed with the City of Hamilton may be required to undertake the works; and,

• A statement detailing other grants or funding sought for the proposed work, where applicable.

2.3 Frequency of Grant

Funding for eligible applications will be awarded on a first-come-first-served basis. A property owner may receive one grant per municipal address per calendar year. Applications will either be conditionally approved or refused.

2.4 Completion of Work

Work must be completed within one year of receiving a conditionally approved grant. Invoices for costs of the completed project shall be submitted to Urban Renewal staff to verify the eligible amount of the grant. Invoices must be submitted within one year of receipt of the conditionally approved grant, unless the deadline is extended by Urban Renewal staff. An applicant with a conditionally approved grant who is deemed to have failed to comply with the terms of the Hamilton Heritage Conservation Grant Program shall not be awarded that grant and is prohibited from making a grant application for the same work in the following calendar year.

NOTE: Work that was approved, but done in a poor or defective manner or in a manner contrary to the conditions of the grant approval or the Heritage Permit (if required), will not be funded.

NAME

Hamilton Water Sub-committee (HWSC).

MANDATE

The City of Hamilton wishes to ensure that all of its Water and Wastewater facilities are compatible with the communities they are intended to serve, compliant with regulatory requirements, reflective of the concerns of interested agencies and implemented in a pragmatic and efficient manner. To do this requires careful planning and strategic thinking to ensure that upgrading and expansion of the existing facilities meets the needs of current and future generations.

In response to the increased initiatives within Hamilton Water, a Hamilton Water sub-committee (HWSC) of the Public Works Committee of Council is established to provide a forum for information exchange regarding important operational issues as well as key projects. Currently, key projects include the Woodward Upgrade and Biosolids Management Projects, however future operational issues and projects may also be included within scope of the sub-committee from time-to-time. Information exchange will occur among members of Council, City staff and consultants, according to Public Works Committee Report PW07007b. This effort will support other components of project communications, including the activities of any Technical Advisory Committee’s and/or Community Liaison Committee’s as established for any given project.

The broad mandate of the sub-committee will be to ensure information exchange and offer direction and support to staff, understanding that major decisions and status reports will still formally be brought forward to the Public Works Committee and Council as required.

The HWSC will be in place a minimum term that includes the completion of the Woodward Upgrade and Biosolids Management project and may include other additional projects from time-to-time through to 2020.
