Lynda Lukasik thanked members of Council and City staff in securing provincial funding for this project; however, she wanted to share concerns about some of the plans and what is being proposed for the western portion of the Rennie Street works yard and the impacts that the uses will have on the neighbourhood. In conclusion, she asked that Council think about where the discussion started, and whether it is fair to the residents that such substantial changes have been made.

A copy of Ms. Lukasik’s comments have been retained in the Office of the City Clerk for the public record.

On a motion, the presentation by Lynda Lukasik, was received.
(bb) Zen Matwiyiw

Zen Matwiyiw stated that he has resided on Woodward Avenue for the past 40 years, and as his property abuts the former Rennie Street landfill site, he has a vested interest in the project. Mr. Matwiyiw gave a brief summary of his 40 years of experience living in this neighbourhood, including the odours from the sewage treatment plant, SWARU, the sludge-burning incinerator, etc.

Mr. Matwiyiw stated that as well as being in favour of the amenities, he wanted to ensure that the end use would accommodate the residents in this neighbourhood for their years of suffering. He also stated that he would like to see an end result which would encourage visitors and tourists to the area.

She also expressed concern with the former City Works Yard on the south side of Brampton Street to Rennie Street.

In conclusion, Ms. Greig stated that she would like to have a nice quiet park, or the works yard left as is until such time as a feasible study has been done for its use.

(dd) Brenda Johnson, Project Manager, Environment Hamilton

Brenda Johnson stated that the whole area around Rennie Street, which includes the QEW, Red Hill Valley Parkway, industries, the sewage treatment plant, sludge yard, has been negatively impacted on an environmental basis. The results of a household survey in 2006 determined that what is required for this neighbourhood are trails and sports utility fields, and that there are differences between what the City is proposing and what the residents want. She urged members of the Committee to make sure that everything is being done to give the residents some pride back into their neighbourhood which right now, is sorely lacking.
