Council – December 12, 2012
Community Homelessness Prevention Initiative

The Community Homelessness Prevention Initiative (CHPI) aims to prevent, address and reduce homelessness by improving access to adequate, suitable and affordable housing that is linked to flexible support services based on people’s needs. The CHPI is a result of the consolidation of funding from five provincial homelessness-related programs.

Housing Stability Benefit

On January 1, 2013 the Province will eliminate the Community Start Up and Maintenance Benefit (CSUMB) as a mandatory benefit from social assistance. CSUMB is an important resource for Ontario Works and Ontario Disability Support Program (ODSP) clients. It provides financial assistance to households who are at risk of losing their housing or who are homeless and trying to secure new housing. In this new fiscal environment, the Province has decided that the provision of financial supports for housing is now at the discretion of each municipality who must determine how best to deliver supports and will fall under CHPI.

In Hamilton, a locally designed and funded Housing Stability Benefit (HSB) will be implemented for a period of six months beginning January 1, 2013 to fill the gap left by the removal of CSUMB. HSB is no longer a mandatory Ontario Works or ODSP benefit. It is now a component of the City of Hamilton’s Community Homelessness Prevention Initiative.

In 2011, the Ontario Works Program issued CSUMB to 4,590 individuals or families. Based on 2011 spending, it is estimated that ODSP issued CSUMB to 2,200 individuals or families. This means that there must be capacity to provide the HSB to approximately 2,475 Ontario Works participants and 1,100 ODSP clients for the first six months of 2013.
Funding

On November 14, 2012 Council approved a motion to maintain the current service levels for CSUMB for the first six months of 2013. The cost will be funded through provincial CHPI funding, the restatement of the net levy portion of existing programs to CHPI and then from the Community Services Department surplus, corporate surplus, tax stabilization reserve, Social Services Initiative Reserve, OMPF reconciliation or any other combination of funding. The funding required for the continuation of the CSUMB for the second six months of 2013 was referred to the 2013 Budget deliberations.

- A total of $3,830,200 budgeted for the Housing Stability Benefit for the first six months of 2013. Of that total:
  - $1,385,000 is allocated to the Housing Help Centre for ODSP clients
  - $2,445,200 is allocated for Ontario Works participants

- Expenditures will be closely monitored and may be reallocated between Ontario Works and ODSP based on demand

Eligibility

Households in receipt of Ontario Works (OW) and Ontario Disability Support Program (ODSP) may apply for HSB. Households must be at risk of losing their housing or be homeless and seeking new housing.

The Housing Stability Benefit (HSB) is a benefit provided to assist in establishing a new principal residence, or to prevent eviction or the discontinuance of utilities or heating in an existing residence. The HSB is designed to provide financial assistance at the same level and with the same eligibility criteria as CSUMB for the first six months of 2013.

Ontario Works and Housing Help Centre staff will be referred to as the Administrator of HSB in this document.

The benefit may also be issued where there is a threat to health or welfare in a non-start up situation.

The amount of the HSB payable, as determined by the Administrator of HSB is up to a maximum of $1500 families with one or more dependent children in a 24-month period; or up to a maximum of $800 where there are no dependent children in a 24-month period.

Each request for the HSB is reviewed on its own merit. HSPB is provided only where needs have been identified and where no other funds are available.
The approved amount is based on verifiable costs which are necessary to establish a permanent residence in the community, to maintain an existing residence or to maintain utilities. Costs must be verified and documented.

The HSB may be paid in separate amounts provided it covers only one "start-up" event and does not exceed the maximum amounts.

Additional payments may be approved the administrator of HSB if there are exceptional circumstances.

**Eligibility Criteria**

**Establishing a New Principal Residence**

In the case of establishing a new principal residence, HSB may be provided if:

- the benefit applicant is establishing a new principal residence within the geographic boundaries of the City of Hamilton;
- the administrator of HSB is satisfied that the recipient will need financial assistance to establish the new principal residence; and
- the benefit applicant meets one of the following criteria:
  - is being discharged from an institution that provided for their basic needs and shelter;
  - has satisfied the administrator of HSB that it would be harmful to their health or welfare to remain in their current residence; or
  - has been evicted from their current residence.

The need for the recipient to leave their residence must be clearly identified and documented, and a reasonable plan to move into a new residence is in place.

The request for benefits must occur within one month from the date of the establishment of a new principal residence. HSB covers a move into boarding, rental accommodation or rent-to-own, but does not cover a move into a per diem funded residence or group home.

The benefit is provided for:

- victims of family violence
- persons who are homeless
- persons who reside in uninhabitable premises (where the uninhabitable conditions are not clearly evident, verification is sought from a third party, e.g., a building or health inspector or physician)
- persons leaving a residence due to:
Appendix A to Item 9(b) of E&CS Report 12-011

Page 4 of 8

- incapacity or death of a supporting care-giver/family member(s);
- overcrowding within the premises;
- documented need for children and sole-support parents to relocate;
- eviction from the premises; or
- a move to more affordable accommodations, where the applicant or recipient was experiencing undue hardship because of extreme shelter costs.

- persons being discharged from institutions such as:
  - correctional facilities;
  - hospitals;
  - hostels;
  - long-term care homes;
  - special care homes; or
  - interval and transition homes.

Allowable Costs

Examples of the cost of establishing a new residence in the community include:

- clothing
- fuel and hydro deposits
- household furnishings
- last month's rent deposit
- moving and transportation to the home of the recipient
- any other costs approved by the Administrator of HSB

Maintaining an Existing Residence

HSB may also be issued where there is a threat to the health or welfare of a recipient or a member of the benefit unit in maintaining their existing residence providing there is eligibility within the 24-month period.

Examples of eligible costs:

- Costs to purchase/rent a generator where it is required to maintain a recipient’s health and welfare.
- Costs to purchase or repair household appliances necessary to the health and well-being of the benefit unit where recipients own their homes and are in receipt of the maximum shelter allowance.
- Costs of new or replacement smoke alarms and batteries for recipients who own their homes and are in receipt of the maximum shelter allowance.
- Costs to eradicate bed bugs where there is an isolated case of bed bug infestation to the recipient’s belongings.
In the case of maintaining an existing residence, HSB may be provided if:

- the benefit applicant will be remaining in their current residence;
- the Administrator of HSB is satisfied that assistance is required to remain in their current residence; and
- the benefit applicant meets one of the following criteria:
  - requires an item necessary to maintain the residence (e.g., appliances necessary to maintain the health and well-being of the benefit unit);
  - has received an eviction notice and has satisfied the Administrator of HSB that, if a payment is made, they will not be evicted;
  - has had a utility or the heating to the current residence cut off and has satisfied the Administrator of HSB that if a payment is made the service will be reconnected; or
  - has received a notice that a utility or the heating to the current residence will be cut off and has satisfied the administrator of HSB that if a payment is made the service will not be discontinued.

In the event that HSB has been exhausted for utility arrears, both OW and ODSP recipients may be referred to the Ontario Works Utility Arrears Program. The OW Utility Arrears Program includes arrears, deposits, removal of load limiters, inspection charges and connection fees for; gas, hydro, water and sewage and furnace or water heater rentals.

**Exceptional Circumstances**

There may be situations where there is a need to provide HSB more than once in a 24-month period. If exceptional circumstances exist, the Administrator of HSB may approve additional HSB up to the maximum amount.

The following are considered exceptional circumstances:

- the necessity to relocate as a result of a catastrophic event (e.g., flood, fire);
- the necessity to relocate as a result of domestic violence; or
- the necessity to relocate as a result of a disability (e.g., where a recipient is moving to a home that better meets their disability-related needs).

Other exceptional circumstances may be considered where the Administrator of HSB is satisfied that not providing the additional funds would be harmful to the health and well-being of the recipient and/or other members of the benefit unit.
Service Delivery of HSB

Emergency Shelters

People staying in emergency shelters may access the HSB in the shelters. They will be served by OW Hostel Case Managers who regularly visit each of the emergency shelters. The OW Hostels Case Manager will determine eligibility for HSB and issue payments. OW Hostel Case Managers will serve recipients of OW and ODSP, rather than just OW as was previously the case.

Ontario Works Participants

OW participants who are not living at an emergency shelter will access HSB through their OW Case Manager. The OW Case Managers will review applications, determine eligibility for financial assistance and issue payments.

ODSP Clients

ODSP clients who are not living at an emergency shelter will be referred by their ODSP Case Manager to the Housing Help Centre. The Housing Help Centre will be responsible for reviewing applications, determining eligibility and issuing financial assistance to recipients of ODSP.

Eligibility criteria and processes will be the same for both Ontario Works and ODSP clients for the issuance of the HSB.

Notice of Decision

All decisions affecting eligibility and the amount of the HSB will be communicated in writing and will include the following information:

- the decision that has been made;
- the reason(s) for the decision;
- the effective date of the decision;
- the decision cannot be appealed to the Social Benefits Tribunal (SBT);
- that a request for a re-assessment of the decision or the amount of the benefit can be submitted in writing to the administrator of HSB within 30 calendar days after receipt or deemed receipt of the decision letter;
the rules and procedures of the re-assessment process, the timeline for reviewing the decision and providing notice, and the form of notice.

Clear written explanations to applicants and recipients are intended to prevent requests for re-assessments that are based on misunderstandings regarding a decision.

The decision letter will be sent by mail or delivered in person. A copy of the notice will be retained by Housing Services Division.

Request for Re-Assessment

An applicant may request a re-assessment of the decision to the administrator of the HSB.

If an applicant disagrees with the decision, he/she must request a re-assessment within 30 calendar days from the day the decision is received or deemed to be received. The request must be made in writing by letter/note signed by the applicant or recipient.

The letter/note should include:

- a statement indicating that the applicant wishes to have the decision reviewed;
- the reason he/she disagrees with the decision; and
- the name, case identification number? and signature of the applicant or recipient requesting the review.

The Re-Assessment Request

A re-assessment request is an informal administrative process, and the applicant does not require legal representation. However, the applicant may choose to bring representation to any interview that is conducted during the re-assessment process.

Once a request has been received from an applicant or recipient, the re-assessment must be completed within 10 calendar days.

The reviewer cannot be the original decision-maker, however he/she should have the same or higher decision-making authority.

During the re-assessment process the reviewer should examine the request, including the decision, to determine if the decision was:

- consistent with the Housing Stability Benefit guidelines;
- based on the correct application of the guidelines;
- reasonable;
• based on information that was factual and comprehensive;
• based on the correct interpretation of facts;
• the result of appropriate use of discretionary power; and not the result of administrative error;
• considers additional information provided by the applicant or recipient related to the decision;
• makes a decision based on the test of reasonableness and information available to the reviewer;
• clearly summarizes the reason(s) for arriving at that decision; and
• documents the re-assessment process.

Audit Requirements

Adequate documentation is on file for the verification of costs to support all decisions and the level of benefit issued.

Review of Housing Stability Benefit

A review will be undertaken of the Housing Stability Benefit to determine its effectiveness in meeting its goals after three months and six months. Data regarding the issuance of HSB will be collated every month from both OW and the Housing Help Centre for analysis. The review will also include the participant’s experience of the program and preferences regarding future service delivery in the form of focus groups and interviews. Community agencies, Ontario Works and Housing Help Centre staff and community will also be consulted for their feedback regarding this six-month pilot project.
