   John McKendrick Senior Vice President Project Delivery, Infrastructure Ontario addressed Committee with the aid of a Power Point Presentation. A copy of the presentation has been included in the official record.

   - John McKendrick, discussed the consultations and work being done with project partners. He discussed the competitive procurement process that is being overseen by a third-party fairness advisory.
   - Mr. McKendrick discussed the projects that Infrastructure Ontario is responsible for delivering for the 2015 Pan Am Games. He indicated that through the design/build process there will be more creative designs come forward. Discussed the positive benefits
in terms of using the design/build process rather than a traditional project where all three proponents bid on one design.

- Mr. McKendrick discussed in detail the RFP evaluation process and when the successful bidders are expected to be announced. He indicated that sometime after the end of May they will announce the award of the preferred proponent.

- Staff asked if all three bids will be released at this time or only the winning bid.
- Mr. McKendrick indicated that their practice is to only release the winning bid.

- Mr. McKendrick discussed the hand over in December of Ivor Wynne Stadium for construction. Discussed the measures put in place in terms of monitoring and ensuring the completion date is met.

- Chair Ferguson thanked Infrastructure Ontario for attending and providing the committee with information.

- Mayor Bratina asked about the cost the Infrastructure Ontario has placed on the stadium.
- Mr. McKendrick indicated that in the interest of encouraging competitive bids and unique designs, Infrastructure Ontario does not release their estimates of what they believe the project will cost.

- Chair Ferguson asked about the two-month extension in the RFP closing from late March to late May.
- Mr. McKendrick indicated that the velodrome site selection has delayed the process. He indicated that the velodrome project however is now well underway and they should not encounter any more problems. He indicated that since Ivor Wynne Stadium will not be turned over for construction until December 2, the delay will not impact the project.

- Chair Ferguson asked about the risks with zoning issues and funding for the Town of Milton’s velodrome project.
- Mr. McKendrick indicated that he felt the risks were minimal at best with the project. He discussed the fundraising aspects and the work being done in terms of zoning. Mr. McKendrick expressed his confidence in the Milton velodrome project.

- Chair Ferguson asked about the late penalties on proponents who did not deliver on time.
- Mr. McKendrick indicated that the penalty relates to the final release of funds in which case interest will start accruing on the
project. Estimated that interest charges could be around $25,000 a day.

- Chair Ferguson asked if Councillors would get to review all three designs.

- Mr. McKendrick indicated that City of Hamilton staff have seen all three designs and if there was a desire to sign the confidentiality agreement they councillors could also review the three designs.

- Chair Ferguson asked about the Carpenters Union.
- Mr. McKendrick indicated that the bidders have all been made aware of the union requirements to the project. He indicated that the successful proponent will have to meet these obligations.

- Staff indicated that the Hamilton Tiger-Cats are asking for a guarantee from the City respecting the completion of the stadium. Staff indicated that if the stadium is not completed in time the City could be looking at a cost of over a million dollars for every Tiger-Cats game that is impacted. Staff asked if Infrastructure Ontario would provide indemnification to the City of Hamilton as they are responsible for the delivery of the stadium on schedule.
- Mr. McKendrick indicated that penalties and other measures would make it highly unlikely that a project would not be completed on time. Mr. McKendrick indicated that he didn't have the authority to authorize an indemnity. He indicated that such authority would likely need to come from the Minister of Infrastructure.

The Update respecting Pan Am Stadium was received.
