Reason(s) for delegation request: * Randle Reef remediation. I am working with a St. Catharines based company on a business plan to remove Randle Reef and convert it into energy. We are using a proven clean conversion process - not incineration - to convert waste into syngas, which can be sold to industry or used to power generators to create electricity. This process has been in use in Sault Ste. Marie for two years now and is proven. It was not available when the current cap & containment proposal was chosen. We can save more than $68 Million in taxpayers money and require no funding from the City. This alone will save the City of Hamilton $8 Million. We may also be able to meet the City's initial deadline of 2015 to remove the Reef and get the harbour delisted. I have circulated this proposal to many business and environmental stakeholders and have been asked by councillors to bring this to a PW Committee meeting.
