Also, they suggested that the photo did not appear to reflect their community.

4.4 Community Centre Follow-up  
The committee felt that a spring visit to 519 in Toronto would be beneficial upon completion of the construction they are currently undertaking. A discussion took place about the need to see the programming space as well. There was also a discussion about making City spaces safe, and the need to define what is “safe space”? they wanted to wait for community groups to identify need and use for a community centre and discuss this further. They noted they would want to invite recreation staff to attend at that time.
