**RECOMMENDATION**

(a) That the Neighbourhood Action Plans attached as Appendix A and Appendix B to report CM12013(a) be endorsed.

(b) That Planning staff be directed to consult with the relevant Neighbourhood Planning Team on potential land use changes that could assist in the implementation of the Neighbourhood Action Plan where appropriate.

(c) That the completed Neighbourhood Action Plans attached as Appendix A and Appendix B to report CM12013(a) be distributed to and reviewed by City of Hamilton staff and Neighbourhood Development Strategy Partners to determine suitable actions to assist in the implementation of the Neighbourhood Action Plan.

(d) That staff be directed to report back to the appropriate standing committee on suitable implementation measures (including cost and resource implications) that will be undertaken by the City of Hamilton to support the implementation of the Neighbourhood Action Plans attached as Appendix A and Appendix B to report CM12013(a).
EXECUTIVE SUMMARY

The Neighbourhood Development Strategy provides the framework for the “horizontal integration” of neighbourhood work that not only ensures the effective and efficient delivery of service at a neighbourhood level, but that will assist the City in creating a stronger working relationship with residents and key stakeholders in neighbourhoods.

Report CM12013(a) presents two Neighbourhood Action Plans (NAPs) that have been developed through the Neighbourhood Development Strategy, totalling six completed NAPs to date. Neighbourhood Action Plans are resident-led, asset-based plans that reflect the issues that are most relevant and pressing to the residents that live in each neighbourhood. Neighbourhood Action Plans provide a work plan for improving the health and well-being of residents in Hamilton neighbourhoods.

The implementation of the defined actions established within each of the Neighbourhood Action Plans will be reviewed by the City, community partners, and the neighbourhood residents and stakeholders themselves to determine suitable implementation measures and responsibility. The City will work with each neighbourhood and all partners in defining what actions will require municipal leadership and investment and which will be undertaken by others. Any Municipal implementation measures (including cost and resource implications) will be presented to the appropriate standing committee for approval.

Alternatives for Consideration – See Page 5

FINANCIAL / STAFFING / LEGAL IMPLICATIONS (for Recommendation(s) only)

Financial: In October of 2010, Council approved the earmarking of $2,000,000 of the Unallocated Capital Levy to support the City’s Neighbourhood Development Strategy, which includes funding for the implementation of identified actions contained within Neighbourhood Action Plans. As part of Recommendation (d) to Report CM12013(a), staff will report back to the appropriate standing committee on suitable implementation measures (including cost and resource implications) associated with the Neighbourhood Action Plans included as Appendix A and Appendix B to report CM12013(a).

Staffing: A key objective of the Neighbourhood Development Strategy is the integration of existing neighbourhood services and supports across City departments, therefore it is anticipated that the current model of collaboration with staff from other departments will continue. Should additional resources be required to assist in the Neighbourhood Action Plan implementation, as part of Recommendation (d) to Report

POLICY IMPLICATIONS

RELEVANT CONSULTATION

It is estimated that to date, more than 600 Riverdale and 1110 Davis Creek residents, business owners and service providers, have been engaged throughout this process. Additionally, residents met once and twice a month for eight months to develop, consult and complete the action plans.

External partners include the Hamilton Community Foundation, Dr. Jim Dunn - McMaster University, Dr. Sarah Wakefield – University of Toronto, the Social Planning and Research Council (SPRC), Wesley Urban Ministries, and the Hamilton Centre for Civic Inclusion.

From a staff perspective, the development of these plans has involved staff representing all six City Departments as well as two Boards and Agencies, through the establishment of a City of Hamilton cross-departmental team. Senior Management Team (SMT) has also been appraised of progress throughout the process, with unwavering support for the initiative.

Wherever possible efforts from the community, external partners and City staff are co-ordinated and opportunities leveraged.

ANALYSIS / RATIONALE FOR RECOMMENDATION

(include Performance Measurement/Benchmarking Data, if applicable)

All Hamilton neighbourhoods have tremendous assets and real barriers to being healthy vibrant communities. Transforming good neighbourhoods into great ones begins with a plan and a great plan is developed and owned by residents and supported by the community. By engaging people within neighbourhoods to identify, plan, and lead the changes that they want to see, neighbourhood health can be improved.

The Neighbourhood Development Strategy has actively engaged neighbourhoods in Hamilton to develop resident-led, asset-based Neighbourhood Action Plans. The Neighbourhood Action Plan for Riverdale and Davis Creek (formerly known as Quigley Road) are attached as Appendix A and Appendix B to report CM12013(a). The actions documented in these plans reflects the issues that are most relevant and pressing to the community.
residents that live the Riverdale and Davis Creek neighbourhoods. In each of the
neighbourhoods that have developed a plan, an existing neighbourhood association or
neighbourhood planning group had been functioning for some time. The planning
process began with the existing group expressing a desire to participate in this process,
the planning team and community engagement strategy were built upon this foundation.

The goals, objectives and actions in the plans were developed through an intensive
planning process that was led by a core group of residents and service providers and
facilitated by the community development worker, the Social Planning and Research
Council in Riverdale, with support from the Neighbourhood Development Office. The
community engagement events and information gathering activities were led by the
community development worker and the planning teams. The process engaged as
many residents as possible in the creation of the actions and are evidence of the
neighbourhoods desire to improve the health and well-being of all the neighbours who
reside there. Key themes across plans include quality of housing, need for community
space, neighbourhood safety and beautification, increasing social capital and
community connectedness, food and education.

**ALTERNATIVES FOR CONSIDERATION**

(include Financial, Staffing, Legal and Policy Implications and pros and cons for each
alternative)

The Neighbourhood Action Plan attached as Appendix A to report CM12013(a) has
been developed by the residents and key stakeholders in the neighbourhood that the
plan represents. Through Recommendation (a) to Report CM12013(a), Council is
asked to endorse the plan thereby supporting the work of the residents and the
Neighbourhood Development Strategy process, originally approved as part of Reports
CM09021a/CS10091, CM11007 and CM11007(b) and would be consistent with the
endorsement of the NAP’s for Keith, Stinson, McQuesten and Beasley Neighbourhoods
that occurred as part of the CM12013.

Recommendation (d) to Report CM12013(a) asks “that staff be directed to report back
to the appropriate standing committee on suitable implementation measures (including
cost and resource implications) to support the implementation of the Neighbourhood
Action Plans attached as Appendix A and Appendix B to report CM12013(a)”. It is
through the process outlined as part of Recommendation (d) that Council will have the
opportunity to approve or modify recommended implementation measures that would be
ultimately be funded through City dollars.

Should Council wish to not endorse the Neighbourhood Action Plans as requested as
part of Recommendation (a) to report CM12013(a), staff will discontinue work in these
neighbourhoods and focus on the implementation of the actions identified in the previously endorsed Neighbourhood Action Plans.

**CORPORATE STRATEGIC PLAN (Linkage to Desired End Results)**

The Neighbourhood Development Strategy directly supports the 2012 – 2015 Strategic Plan through:

**Strategic Priority #1 – A Prosperous & Healthy Community**

*WE enhance our image, economy and well-being by demonstrating that Hamilton is a great place to live, work, play and learn.*

**Strategic Objective**

1.5 Support the development and implementation of neighbourhood and City wide strategies that will improve the health and well-being of residents.

**Strategic Actions**

(i) Complete the development of Neighbourhood Action Plans in selected priority neighbourhoods and complete a funding strategy to guide how the City of Hamilton will support the implementation of Neighbourhood Action Plans.

The funding strategy noted as part of the Strategic Action is addressed under Recommendation (d) to Report CM12013(a).

10 The Workplan

Thank You
History of the Neighbourhood

We, the Davis Creek Community Planning Team, developed this plan in 2011-2012. We were supported in the planning and implementation process by a Community Development Worker, Hamilton Community Foundation and the Neighbourhood Development Office of the City of Hamilton.

We engaged the Davis Creek Neighbourhood throughout this planning process in the following ways:

- Flyers and Posters: 500
- Face-to-face meetings:
- Survey: 76
- Schools:
  - Sir Wilfrid Laurier (gr.4-5): 57
  - Glendale Secondary School: 62
- Community meetings:
  - Community members: 125
  - Service Providers: 43
- Community Events: 250

This plan is more than words on paper; it is intended to drive clear and feasible action by the Davis Creek Community Planning Team and the City of Hamilton. It is intended that this plan will be used to develop City of Hamilton work plans and funding priorities. However, we understand that not all our actions may be feasible due to funding or other limited resources, but we will explore each option to its fullest.
Profile of Davis Creek

There are at least three established communities within this area. Community Access to Child Health (CATCH) on Quigley Rd and Pine Grove Place on Congress Court, have long-term community resident groups and projects. The Tindale area is similar to the other areas in that it contains a lot of high density living and many low income families. This area has never been formally organized for or by residents.

The three areas have a number of other similarities. They are mixed neighbourhoods of single family residents, town house complexes and high rise apartment dwellings. Although some of the areas would be considered stable long–term residential areas, others are characterized by low income, lone parent families, and high rates of unemployment. Parents often feel isolated. There are limited, locally available constructive activities for children, youth and families. As well, drug related violence and gang activity are frequent occurrences in all three areas.

For the last 9 years, CATCH on Quigley Road has offered the community a community driven response to short and long-term community needs. It currently provides a preschool and parent drop-in five mornings a week, a parent/child lunch program, a food cupboard two days a week and after school programs in 2 sites for children and youth. Recently it has taken on more of an advisory role then a decision-making one. The issues have not changed and hopefully, through the neighbourhood planning process the community residents will have some impact on community planning and implementation of projects to improve the lives of the residents.

Pine Grove has a community tenant association that is focused on improving living conditions for the tenants. The residents are interested in becoming more involved in community activities.

The Davis Creek Community Planning Committee has been meeting every other week since March to work through the Neighbourhood Planning Process. Residents from all three areas have attended meetings. However attendance is variable and some residents are frustrated by the planning and want to see immediate action.
Why did we do this
- For the community to have a say in what goes on in our community
- For the good of our neighbourhood
- To meet our neighbours
- To have the best neighbourhood in the City of Hamilton
- To take pride in our neighbourhood

How the plan was developed
- Community Consultation
- Special events
- Talking to community resident’s
- Open forum discussions
- CATCH office
- Bus stops, stores, on the street, etc.

Who participated on the Planning Team

10 The Workplan

Thank You
Welcome to the Riverdale Neighbourhood!

History of the Neighbourhood

The Riverdale Community Planning Team developed this plan in 2011-2012. We were supported in the planning and implementation process by a Community Development Worker and the Neighbourhood Development Office of the City of Hamilton.

We engaged the Riverdale neighbourhood throughout this planning process in the following ways:

- Face-to-face
- Surveys
  - Youth surveys (13 and over) 72
  - Kids (7 – 12) 10
  - Adults 66
  - Mixed community members 205
- Community meetings
  - Community members 125
  - Service Providers 43
  - Youth 30
- Other
  - Community Information Drop In 30
  - Hamilton Urban Core 18

This plan is more than words on paper; it is intended to drive clear and feasible action by the Riverdale Community Planning Team, Hamilton Community Foundation and the City of Hamilton. However, we understand that not all our actions may be feasible due to funding or other limited resources, but we will explore each option to its fullest.
Profile of Riverdale

The following is a quote from “Riverdale 2009 A Changing Mosaic” (Social Planning and Research Council of Hamilton)

“A small neighbourhood in East Hamilton, right next to the border between Stoney Creek and the original Hamilton, Riverdale West is home to a vibrant mix of citizens from around the world. 51% of the population is foreign-born and the percentage of recent immigrants (arriving in Canada between 2001 and 2006) is 16% in Riverdale West compared to 3.3% for Hamilton as a whole. In fact, 7% of Hamilton’s recent immigrants live in Riverdale West (in contrast, Riverdale West has only 1% of the city’s overall population).

The numbers at Lake Avenue School, the neighbourhood’s elementary public school suggest that the community is even more diverse than census numbers indicate: 18% of students have been in Canada less than 5 years, 81% of students speak a first language other than English and over 31 different languages are spoken by students. The 2006 – 2007 kindergarten class alone spoke 16 different languages.

In a state of constant change: the Riverdale community is also distinguished by its changing population and high mobility rate. The 2006 census showed that 22% of Riverdale residents changed address in the previous year (whether moving across the world or across the street).”
Why did we do this
So the community has a strong voice in where they live and what programs are being offered in their community.

How the plan was developed
Community members were encouraged to come to monthly meetings and requested to do a series of tasks. The first was an asset mapping exercise outlining the good things in their neighbourhood. A survey was done asking again the good things in the neighbourhood but also things they would like to change if they had the opportunity. Other questions were also asked, for example, if they felt safe during the day and at night. The surveys were done all over the community, ESL programs, CAPC office, community centre, out on the field, anywhere people were gathering. With the help of the Social Planning and Research Council of Hamilton the data was collected and sorted. Topics/issues were selected, brought back to the community members and asked to be put into priorities. Which ones would be 1, 2, 3 etc. After all this hard work a community plan was developed, presented to the planning team and approved.

Who participated on the Planning Team
Participants included community members from all backgrounds (there are 18 non English speaking members), the Community Development Worker, the Riverdale Resource Facilitator and the Social Planning and Resource Council of Hamilton were the facilitators in this process but other service providers were also at meetings. They were Lightway Church, Hamilton Public Library, City of Hamilton, YWCA, Immigrant Women’s Centre, Hamilton Urban Core, Ontario Early Years Centre and St. Charles Adult Education.
Implementation of the Plan – Next Steps

- Have a strong Riverdale Community Planning Team (RCPT)
- Implement Work Plan
- Continue promotion of the RCPT
- Continue engagement with the community to implement the community work plan
- Continue to seek out and support the strengths in the community
- Bring Service Providers to the Planning Team table on a community need basis
- Start engagement with City of Hamilton to implement the work plan
