EXECUTIVE SUMMARY:

The applicant has submitted an application for a Zoning By-law Amendment to permit a Garden Suite ("granny flat") for a maximum period of ten years.

The Department supports the application in view of the fact that it is consistent with the Greenbelt Plan and Provincial Policy Statement, conforms to the Hamilton-Wentworth Official Plan and the Flamborough Official Plan, and as the temporary garden suite is considered a compatible use.

BACKGROUND:

The “Garden Suite” is intended to be occupied by the owner's retired parents.

The applicant has also requested a modification for a reduction in the minimum rear yard setback from 10 metres to 1.8 metres, which is discussed in the Analysis/Rationale Section of this report.

**ANALYSIS/RATIONALE:**

1. The proposal has merit and can be supported for the following reasons:

   (i) The proposed modification in zoning is consistent with the Greenbelt Plan and the Provincial Policy Statement, and it conforms to the Hamilton-Wentworth Official Plan and the Flamborough Official Plan.

   (ii) It is compatible with the existing and planned development in the immediate area.

2. Flamborough Official Plan

   The subject lands are designated “Agriculture” on Schedule “B”, Rural Land Use Plan, of the Flamborough Official Plan. On May 4, 1992, Council adopted Official Plan Amendment No. 29 to implement the then requirements of the Provincial Policy Statement on Land Use Planning for Housing. This Amendment was approved by the Region on August 13, 1993, and contains Section E.3.2.5.

   Section E.3.2.5 of the Town of Flamborough Official Plan provides criteria to be considered for the placement of temporary mobile dwelling units on lands designated “Agriculture” or “Rural”, in accordance with Section F.6.7 of the Flamborough Official Plan:
A temporary mobile dwelling unit may be permitted for:

- the retired parent(s) of a property owner or the property owner’s spouse; or,

- a retiring property owner, provided that the principle dwelling is occupied by the son or daughter of the retiring property owner.

(ii) the proposal is compatible with the surrounding area and does not impact on the use of the lands for agricultural purposes.

(iii) the existing landscape can be maintained or improved.

(iv) the provisions of the Zoning By-law, including adequate off-street parking and the Minimum Distance Separations from agricultural operations, can be met.

(v) no new access shall be permitted onto a public road.

(vi) the proposed use can be adequately serviced with water, sewage disposal, roads, garbage collection and utilities, so as not to compromise the Town’s financial ability to provide such services.

(vii) the adequacy of schools and community facilities to service the proposed use.

(viii) the contribution of the proposed use to the provision of affordable housing.

(ix) the need for the proposed use has been justified by the landowner.

(x) other actions, as may be deemed necessary, through the Zoning By-law.

(xi) the proposal conforms with the provisions of Sections C.1 (The Flamborough Niagara Escarpment Plan Area).

(xii) the owner of the subject property shall enter into an Occupancy Agreement with the Town, specifying who the occupants of the principle dwelling and the temporary mobile dwelling will be.

The principle dwelling is occupied by the owners and their three children. The proposed temporary retirement dwelling is intended to be occupied by the parents of one of the owners.
The proposed use is considered to be compatible with the surrounding area. The existing landscape will be not be negatively affected as the proposed mobile dwelling will be setback 127 metres from the street and will be surrounded by existing mature trees (see Appendix “C”).

The proposal does not impact the use of the lands for agricultural purposes and the requirements of the Zoning By-law including minimum parking will be maintained. No new access is proposed and private servicing is available for the temporary unit.

The Department is satisfied that the need for the proposed use has been justified. The applicant has indicated that one of the retired parents has a medical condition, which requires constant care and additional support becomes increasingly required from the children (owners). The temporary unit will also constitute affordable housing for the resident.

Prior to the passage of the implementing Zoning By-law, the owner shall be required to enter into an Occupancy Agreement, as per the Flamborough Official Plan and as authorized by the Planning Act (Section 39.1(1)), specifying, among other matters, who the occupants of the principle dwelling and the temporary mobile dwelling will be and the length of time the garden suite is permitted for.

Finally, the proposal is in accordance with Section F.6.7 of the Flamborough Official Plan, since the proposed dwelling unit is temporary, can be easily removed, and is compatible with the adjacent uses. Also, the size of the parcel and buildings are appropriate for the second unit and there is adequate space to accommodate private services on site for the proposed temporary use.

Based on the foregoing, the proposed temporary mobile dwelling unit conforms to the relevant criteria for such units under the Flamborough Official Plan.

3. Flamborough Zoning By-law No. 90-145-Z

The subject lands are zoned Agricultural “A” Zone in the Flamborough Zoning By-law No. 90-145-Z. This zone does not permit the development of a second dwelling unit on the subject property. The proposed site-specific Agricultural “A-81” Zone would allow for the placement of a temporary mobile dwelling unit, in accordance with the provisions set out for the Agricultural “A” Zone, as amended.

The applicant is proposing a rear yard setback of 1.8 metres (see Appendix “C”), whereas the Agricultural “A” Zone provisions requires a minimum rear yard setback of 10 metres. The purpose and intent of the By-law is to require minimum rear yard building setbacks in order to provide adequate space for maintenance, drainage, outdoor amenity space and to buffer any potential negative impacts from agricultural operations on the surrounding properties. A
site inspection of the subject lands concluded that the proposed location of the mobile dwelling unit is appropriate since there is adequate space for maintenance, drainage, and amenity space. Negative impacts from the adjacent agricultural lands are not present and the mobile dwelling could be relocated, subject to amending the Occupancy Agreement, if such impacts occur. Furthermore, the proposed location of the mobile dwelling unit is surrounded by mature trees, which provides adequate screening for any potential visual impacts to the surrounding properties. Accordingly, the proposed reduction in rear yard setback can be supported.

The proposed mobile dwelling unit will meet all other requirements of the Agricultural “A” Zone, including the minimum front yard setback of 7.5 metres, minimum side yard setbacks of 1.8 metres, and maximum lot coverage of 20%.

The Flamborough Zoning By-law No. 90-145-Z requires a minimum of two parking spaces for the proposed Garden Suite and existing dwelling (one parking space for each). The existing garage and driveway accommodates the two required parking spaces.

4. Extended Length of Approval

On May 31, 1994, The Residents Rights Act (Bill 120) received Royal Assent. On July 14, 1994, the parts of Bill 120, which amended the Planning Act and Municipal Act, were proclaimed into law. As part of the amendment to the Planning Act, the provisions for the municipality to pass a Temporary Use By-law for “garden suites” has been increased from a minimum of three years to a maximum of ten years. The renewal period remains at three years.

5. Servicing of the Site

As indicated in the agency comments, the Public Health and Community Services Department (Health Protection Branch) has no objection to the proposal. Additionally, the construction of the proposed dwelling is subject to the issuance of a building permit in the regular manner. The Building Code Act requires that any person installing or repairing a Class 2, 3, 4 or 5 sewage system (including septic) obtain a sewage permit issued by the Chief Building Official prior to commencing construction. The existing site is serviced by private well and septic systems.

**ALTERNATIVES FOR CONSIDERATION:**
