Staff (Community Planning & Design) was directed to send a letter to the property owners explaining the historical importance of the property and encourage them to reconsider their decision in withdrawing their request to have the property designated.

This item was noted as being complete.

4.2 **Beach Lighthouse and Keeper's Cottage** (Item 8.6.1)

Prior to amalgamation, a plaque had been approved by the City of Hamilton. An error had been found with the plaque, but it appears that a correction plaque had never been produced.
A. French is to speak to members of the Joint Plaquing Sub-Committee regarding this matter and to report back to Committee.

As there are no meetings of the Joint Plaquing Sub-Committee during the months of July and August, A. French will bring this item forward at the September meeting; subsequently, providing an update to the Hamilton LACAC (Municipal Heritage Committee) at its September 22, 2005 meeting.

(Toews/Charlton)
That Robin McKee be permitted to address the Committee respecting Item 4.2.

CARRIED

R. McKee informed the Committee that the site is named, by the reasons for designation, as the "Burlington Canal Lighthouse and Keeper's Dwelling", but it is known as the "Beach Lighthouse and Keeper's Cottage".

4.3 Smart-Turner Building, 191 Barton Street East, Hamilton, ON

Staff (Community Planning & Design) was requested to provide justification for the name Smart-Turner Building versus Smart-Turner-Hayward Building.

S. Vattay reported that the building has always colloquially been referred to as Smart-Turner, and that the company Smart-Turner was operating out of the building for over 90 years. It was known as the Smart-Turner-Hayward company for only 13 years.

4.4 Tivoli, 108 James Street North, Hamilton, ON; Protection Against Winter Conditions

That the Director of Building & Licensing was requested to provide comments as to whether or not the Tivoli Theatre, 108 James Street North is adequately protected for winter conditions in relation to the Property Standards By-law.

Standards & Licensing staff will perform an inspection at the site and an update will be provided at the September 22, 2005 meeting.

4.5 Tivoli, 108 James Street North, Hamilton, ON; Owners’ Intentions

Committee suggested that both Councillors McHattie and Pearson arrange a meeting with the engineer and agent to speak to them in this
regard. The Councillors were asked to report back to the next Committee meeting.

Councillor Pearson provided comments respecting her discussions with Joe Venditti, the Engineer for the Sniderman family. Several interested parties have been shown the property, but nothing promising yet. As to the condition of the building, the northwest corner continues to have plaster falling in the stairwell. It was suggested that the building should be repaired before the winter. Currently, no services have been re-connected; however, the building is sealed and secured, and there have been no break-ins.

Mr. Venditti does not have any difficulty with respect to the Hamilton LACAC (Municipal Heritage Committee) promoting the building and referring prospective buyers to his attention. Councillor Pearson noted that Mr. Venditti feels that building has tremendous potential; however, the downfall is the apprehension by prospective buyers with respect to the cost implications.

Ms. Scrivener provided the Committee with an overview of HFHO’s vision and plan for the Mark Preece Family House; noting that the HFHO Board was requesting that the Hamilton LACAC (Municipal Heritage Committee) defer the designation of the property until the environmental and other technical studies can be completed. Upon receipt of the report, HFHO would attend a Hamilton LACAC (Municipal Heritage Committee) meeting to discuss the matter further.

Ms. Scrivener also stated that she was unable to source grants for alterations of this kind.

D. Cuming noted that interest free loans were available through the Hamilton Community Trust Fund and reminded Committee members that Council had directed the Committee to ensure that the property was designated under the Ontario Heritage Act.

Don May, representing Hamilton Health Sciences (HHS) and Dennis Wilson, Project Consultant for the Mark Preece Family House were present in support of the HFHO’s request to defer the recommendation to designate, in order that due diligence with respect to environmental studies may be completed. HHS and the HFHO would then jointly come forward with their proposal to the October 27, 2005, meeting of the Hamilton LACAC (Municipal Heritage Committee) for further discussions.

Copies of the Hamilton General Hospital Campus Master Plan and the context plan were circulated for the Committee’s review. Both Mr. May and Mr. Wilson were available to answer Committee’s questions.

Committee discussed the matter and most agreed to provide additional time to the HFHO and HHS to complete their environmental studies. Staff reiterated that members of Council had directed the Committee to make certain that the property was designated under the Ontario Heritage Act.

(Reid/Toews)

7.4 York Boulevard Bike Lanes Class Environmental Assessment, Public Works

Sonya Kapusin, Project Manager, Environmental Planning, outlined the project to the Committee, as the City is investigating the opportunity of placing a community bike lane from the Burlington border to Downtown Hamilton. The Committee was also informed that the Class Environmental Assessment process would involve public consultation, review with public agencies and committees, such as the Hamilton LACAC (Municipal Heritage Committee). As there are heritage criteria to be considered staff are requesting the Committee’s input at various stages throughout the process.

H. Solomon, Manager, Traffic Engineering and Operations, noted that in order to reduce traffic congestion and air pollution in the City, alternate modes of transportation is a mandate for the Department. The bike lane would run from Dundurn Castle to the Burlington boundary, and potentially connect to Valley Inn Road. Mr. Solomon stated that they would like the Committee to review the plan, at the appropriate time, before moving forward, as it would involve widening of the sidewalk or a possible relocation of light poles on the bridge.

8. DISCUSSION ITEMS / NEW BUSINESS

8.1 Delegation of Council Consent to Staff for Alternations to Designated Property under the Ontario Heritage Act (City Wide)

Staff presented a report that provided an overview of new provisions in the recently amended Ontario Heritage Act that allow for the delegation to municipal staff of approvals for alterations to designated heritage properties. Staff indicated that an alternative that involved consultation with the Heritage Permit Review Subcommittee, the Cross-Melville District Advisory Committee and the Mill Street Heritage District Advisory Committee, prior to approval by the Director Development and Real Estate, appeared to be the most beneficial and efficient solution. Committee members expressed concern that the Hamilton LACAC (Municipal Heritage Committee) would have no direct role in approvals for alterations.

Staff advised that the time required for reporting back to the Committee and then on to the Director of Development and Real Estate might be counter-productive and contrary to the intent of delegation, which was to speed up the approval process.

(Shaker/Wakeman)
(a) That Council be advised, that as per the provisions of the Ontario Heritage Act, that the power to consent to alterations to property
designated under the Ontario Heritage Act be delegated to the Director of Development and Real Estate, Planning and Economic Development Department, as per the draft By-law attached as Appendix A to this report, and as advised by the Hamilton LACAC (Municipal Heritage Committee).

(b) That the draft By-law, attached as Appendix A to this report, which has been prepared in a form satisfactory to Corporate Counsel, be forwarded to Council for enactment.
