How DARE you prohibit exotic animals. People want their pet chameleons, tropical fish, boas. This is absolute Tyranny.

This is fascist, sadistic, and completely unnecessary. Only ban species which can become a pest if they go wild. Otherwise it is none of your god damn business what pet I choose to keep unless it poses a danger to me.

How is a six inch pet lizard of a big red pet fish or a little parrot or a turtle a threat to anyone? You have officially gone too far. This is Fascism.
