5. INVESTMENT OBJECTIVES

Preserve Capital: Ensuring the safety of principal is of paramount importance.

Diversification: Proper diversification will help ensure the objective of preservation of capital.

Adhere to investment objectives of the City’s Trust Accounts:

“Among other criteria, Section 27 of the Trustee Act stipulates that a trustee:

- must exercise the care, skill, diligence and judgement that a prudent investor would exercise in making investments;
- may invest trust property in any form of property in which a prudent investor might invest; and,
- must diversify the investments of trust property to the extent that is appropriate.

Maintain Adequate Liquidity: Ensure adequate liquidity to meet cash flow requirements of the Trust Funds.

Mandatory Criteria: In consideration of section 27(5) of the Trustee Act, a trustee must consider the following criteria in planning the investment of trust property, in addition to any other Sections of the Act that are relevant to the circumstances:
• General economic conditions;
• The possible effect of inflation or deflation;
• The expected tax consequences of investment decisions or strategies;
• The role that each investment or course of action plays within the overall trust portfolio;
• The expected total return from income and the appreciation of capital;
• Needs for liquidity, regularity of income and preservation or appreciation of capital; and,
• An asset’s special relationship or special value, if any, to the purposes of the trust or to one or more of the beneficiaries.

6. INVESTMENT POLICY

Permitted Investments:

• The minimum quality standard for individual bond issues is AA (Low) or equivalent, as rated by a recognised bond rating agency at the time of purchase;
The minimum quality standard for individual short term securities (i.e. T-bills) is R-1 (High) or equivalent, as rated by a recognised bond rating agency at the time of purchase; and,

All investments such as bonds and T-bills and mutual funds should be reasonably liquid (i.e. in normal circumstances they should be capable of liquidation within six months.

Credit Exposure Limits:

No explicit limits on federal and provincial bonds (including government guaranteed bonds). For Canadian Chartered Schedule I banks exposure should be diversified across the banks; maximum exposure to each Schedule I bank should aim to maximize the CDIC insurance limit (currently at $100,000).

Fixed Income Securities:

Deposits and other Short Term Securities:

The above securities should be diversified by a financial institution (Schedule I Canadian Bank) and each investment must be less than $100,000 (including expected interest accruals), qualifying it for CDIC insurance.

Eligible Currencies:

All investments shall be denominated in Canadian dollars.

An analysis of cash flow requirements will allow for the laddering of investments according to the expected time at which they are required. Furthermore, laddering of term will help toward diversification of term-to-maturity risk.

Liquidity:

Ensure that adequate liquidity in investments is available, in the event of unforeseen requirements by Wentworth Lodge.

Tax Considerations:

The impact of tax on returns is to be considered when evaluating investment alternatives.
