RE: File OPA–05-26 / ZAC-05-130

These were my original comments and concerns on February 6, 2006:

1. If rules are in place, why are so many *variances* being considered?

2. Why minimize the quality of life (density, landscaping, parking-handicapped no less) for these owners?

3. Whose interests are being represented? It smacks of greed. *Modifications!*

Again, I'm asking why the proposed changes are necessary.
