ANALYSIS/RATIONALE:
Current provincial legislation requires a municipal by-law passed by council to incorporate lands into the municipal public highway system. This report follows requirements of that legislation.

ALTERNATIVES FOR CONSIDERATION:
The alternative to not incorporating these lands into public highway would be to bar legal access to abutting lands. This would conflict with the development strategy and approved road patterns.

FINANCIAL/STAFFING/LEGAL IMPLICATIONS:
FINANCIAL: These lands have been acquired at nominal costs during the development process. Life Cycle costs associated with extensions of the road network are estimated
at $6,800 per lane kilometre per annum operating, and $11,200 per lane kilometre per annum capital.

STAFFING: There are no associated staffing implications, other than operations and maintenance impacts with road network extensions.

LEGAL: The City of Hamilton is complying with the relevant legislation by enacting these By-Laws.

POLICIES AFFECTING PROPOSAL:

This recommendation does not bind the corporation to any policy matter.

RELEVANT CONSULTATION:

In consultation with the Planning and Economic Development Department, Development Engineering Section it has been determined that the development funding has been satisfied. As such this process should proceed to facilitate an orderly development pattern.
