CITY OF HAMILTON
MOTION

Committee Date: February 3, 2014

MOVED BY COUNCILLOR B. MCHATTIE

SECONDED BY COUNCILLOR

9.2 Sidewalk Construction Policy – California Curbs

Whereas, the City has been installing sidewalks with a system known as “California Curbs”, and;

Whereas, California Curbs result in a unsafe dip in the sidewalk when they cross driveways, and;

Whereas, the dip in the sidewalk can cause water to collect, which can freeze in the winter, resulting in icy conditions for pedestrians, and;

Whereas, constituents have complained about California Curbs and at least one citizen has fallen, damaging their knee;

Therefore Be It Resolved:

That staff be directed to report back on the City of Hamilton sidewalk construction policy, and include sidewalk design options for consideration by the Public Works Committee.
