(d) That the costs associated with the ownership and registration of the 28 cemeteries listed in Appendix B to Report PW12052, be funded up to $100,000 from the Cemetery Building Fund - Niches Reserve 104105.

EXECUTIVE SUMMARY

The intent of this report is twofold: the first is to present a harmonized Hamilton Municipal Cemeteries By-law to replace the six by-laws of former municipalities currently governing the management, operation and maintenance of the City of Hamilton’s 67 cemeteries in accordance with new legislation; the second is to propose and approach to having the City of Hamilton registered as the owner of 28 of these cemeteries that are the management responsibility of the City.

Harmonized Cemeteries By-law:

The new Funeral, Burial and Cremation Services Act, 2002 and its regulations will come into force on July 1, 2012. The harmonized Hamilton Municipal Cemeteries By-law has been written to conform with the new legislation and regulations.

The harmonized Cemeteries By-law includes a list of cemetery properties currently being maintained by the Hamilton Municipal Cemeteries, applicable definitions, regulations for monuments, markers and mausolea and for the care of lots.

Ownership of City of Hamilton Cemeteries:

As listed in Appendix B to Report PW12052, the City of Hamilton is the registered owner (holds the title under the appropriate documents filed at the Registry Office) of 39 of the 67 cemeteries it maintains. The remaining 28 cemeteries are either cemeteries in Land Titles where the City of Hamilton is not shown as the registered owner (as listed in Appendix B to Report PW12052 numbers 40 - 56) or cemeteries where the owner cannot be determined with certainty (as listed in Appendix B to Report PW12052 numbers 57 - 67), however by legislation it is the City’s responsibility to maintain them. This occasionally causes problems particularly related to boundary issues and it is proposed that the process to transfer the ownership of these 28 cemeteries to the City be undertaken.

Alternatives for Consideration - See Page 7

FINANCIAL / STAFFING / LEGAL IMPLICATIONS

Financial: There are no financial implications associated with the harmonized Hamilton Municipal Cemeteries By-law.

The financial implications related to the process of transferring ownership of 28 cemeteries to the City of Hamilton is a one-time cost estimated to be no greater than $100,000 to cover the cost of the preparation of a court application by a lawyer, legal support staff, the lawyer’s appearance in court and any costs incurred for the assistance of the Surveys / Technical Services Section of the Public Works Department. It is
recommended that this be funded from the Cemetery Building Fund – Niches Reserve 104105. There is sufficient funds in this reserve to cover this expenditure.

**Staffing:** There are no staffing implications associated with the recommendations in this report.

**Legal:** The City is legislated by the *Funeral, Burial and Cremation Services Act, 2002* and its regulations which come into force on July 1, 2012.

### HISTORICAL BACKGROUND

#### Harmonized Cemeteries By-law:

On January 1, 2001, the former municipalities of Ancaster, Dundas, Flamborough, Glanbrook, Hamilton and Stoney Creek were amalgamated resulting in six different by-laws to regulate the management, operation and maintenance of cemeteries in the new City of Hamilton.

The new City assumed responsibility for six cemetery by-laws including:

1. By-law 81-91 - Town of Ancaster
2. By-law 4459-98 - Town of Dundas
3. By-law 96-582 - Township of Flamborough
4. By-law 500-94 - Township of Glanbrook
5. By-law 95-125 - City of Hamilton
6. By-law 4402-96 - City of Stoney Creek

The Cemeteries Task Force under the Transition Board for the New City of Hamilton recommended that, “a review and merging of existing by-laws” be undertaken. It was recognized that the preparation of a consolidated Hamilton Municipal Cemeteries By-law was necessary to harmonize the management, operation and maintenance of the City’s cemeteries. Changes in City personnel and delays to the enactment of new provincial legislation have prolonged the drafting process. Now that the new legislation, the *Funeral, Burial and Cremation Services Act, 2002* and its regulations are to come into force on July 1, 2012, we are able to request approval of the harmonized by-law.

The harmonized by-law will be an important tool for consistent management, operation and maintenance of the City’s cemeteries.

#### Ownership of City of Hamilton Cemeteries:

The City of Hamilton is the registered owner (holds the title under the appropriate documents filed at the Registry Office) of 39 of the 67 cemeteries it is responsible for maintaining. It is proposed that the City of Hamilton be registered as the owner of the 28 remaining cemeteries.

Currently, the City is the owner of the remaining 28 cemeteries under a statutory provision which was in force from 1914 until 1990. The provision deemed the City to be the owner once it undertook the maintenance of the cemeteries. Around the time of
amalgamation, it appears that several of these cemeteries were sent to outside legal service providers to be registered, however the registration was not completed.

**POLICY IMPLICATIONS**

A single, comprehensive and harmonized by-law respecting the administration, operation and maintenance of cemeteries will provide for a more effective, efficient and sustainable management tool that will meet the current and future bereavement requirements of the community. In addition, harmonizing the by-law and pursuing ownership of all cemeteries currently being maintained by City of Hamilton staff supports the Strategic Plan priority of Valued & Sustainable Services and the Public Works Business Plan “Innovate Now” priority of mutual beneficial charters with external customers.

The administration, operation and maintenance of cemeteries are regulated by the Province of Ontario through the current Cemeteries Act and will continue to be regulated by the new Funeral, Burial and Cremation Services Act, 2002 that will come into force on July 1, 2012.

There are approximately 113 registered (licensed) cemeteries and burial sites located within the boundaries of the City of Hamilton. Of these, 67 cemeteries are maintained by the City of Hamilton, the rest being privately owned by religious institutions or families. Some cemeteries are not licensed. At any time, should any of these cemeteries become “abandoned”, the legislation obligates the municipality to own and assume responsibility for it. Under such circumstances, the current Cemeteries Act and the new Funeral, Burial and Cremation Services Act, 2002 set out processes by which abandoned cemeteries must be looked after by the municipality in which it is located: “…the local municipality within whose geographic boundaries the land of the cemetery is located…becomes the owner of the cemetery with all the rights and obligations in respect of the cemetery…” O. Reg. 30/11, s.171 (8). The intent of the legislation and regulation is to ensure that abandoned cemeteries will continue to be maintained.

A harmonized by-law combined with the registration of the City of Hamilton as the owner of 28 of 67 cemeteries will position the City to efficiently and effectively deal with any potential future private cemetery abandonment issues should the need arise.

**RELEVANT CONSULTATION**

Several discussions with industry professionals, such as Hilton Landmark Inc. and the Ontario Association of Cemetery and Funeral Professionals have taken place over a number of years related to the potential improvements and efficiencies in having one harmonized By-law to govern the management, operation and administration of the City of Hamilton’s 67 cemeteries.

In addition, the Legal Services Division of the City Manager’s Office and the Cemeteries Regulation Branch of the Ministry of Consumer Services for the Province of Ontario were extensively consulted in the preparation of this by-law and report.

ANALYSIS / RATIONALE FOR RECOMMENDATION

Harmonized Cemeteries By-law:

By-law Structure:

Currently, the policies, procedures and standards governing cemeteries in Hamilton vary greatly from one former municipality to another. As such, significant time, effort and resources are spent on ensuring accurate and relevant information is provided to the customer. In addition, the current by-laws will be out-dated due to the upcoming changes to the new *Funeral, Burial and Cremation Services Act, 2002* that will come into force on July 1, 2012.

There are two main areas of change in the consolidated By-Law, from the current by-laws:

- Number of internments allowed per grave
- Third party sales, which is a legislated requirement of the new Act.

The harmonized by-law proposes a maximum of 4 persons per grave (2 traditional casket burials and 2 cremated human remains). The table below outlines the existing by-law provisions. Customers who purchased plots before the new By-Law goes into effect, the number of internments are grandfathered back to the by-law in effect when they were purchased.

<table>

<tbody>

<td>Town of Ancaster (By-law 81-91)</td>
<td>One full interment; or one full interment and cremated remains to a maximum of six</td>
</tr>
<tr>
<td>Town of Dundas (By-law 4459-98)</td>
<td>One interment plus two cremated remains unless specifically designated as a double depth lot</td>
</tr>
<tr>
<td>Township of Flamborough (By-law 96-582)</td>

</tbody>
</table>
Third party sales are now a requirement of the new Funeral, Burial and Cremation Services Act. This allows an interment rights holder or a scattering rights holder to re-sell their rights to a third party before the interment or scattering rights are exercised for no more than the current price listed on the Tariff of Charges.

A harmonized Cemeteries By-law will reduce the number and complexity of the existing (six) cemetery by-laws and result in a document that is easier to interpret by staff, by Interment Rights Holders, members of the public and by cemetery-related businesses. As well, this By-law will ensure that regulations relating to the management, operation and maintenance of the cemeteries are in compliance with the new legislation.

Providing high quality and diverse cemetery services are a hallmark of a caring City. A harmonized Cemeteries By-law will be an essential tool in providing consistent and fair management, operation and maintenance for all 67 cemeteries for which the City is responsible.

Ownership of City of Hamilton Cemeteries:

Registering the City of Hamilton as the owner of 28 of 67 cemeteries is necessary for legal reasons, including facilitating real estate transactions involving a cemetery, as well as dispelling any uncertainty about ownership for the benefit of the public generally and Interment Rights Holders in particular.

All former municipalities have received cemeteries that were abandoned to them. In most cases, no funds or trust monies were received. The monies either did not exist or were spent on the upkeep of the cemetery. The City of Hamilton has recognized there are many private cemeteries that could potentially fall into this category. These properties have to be maintained and legislation requires that municipalities assume this responsibility in the event of abandonment.

The report of the Cemeteries Task Force under the Transition Board for the New City of Hamilton addressed this matter only to the extent of recommending that title searches be done to verify the ownership of all cemeteries.

Appendix B attached to this report lists all 67 cemeteries, showing those held by the City as the registered owner and those that are not. It also indicates where there are assumptions or operating by-laws demonstrating the City’s ownership under the statutory provision in force from 1914 until 1990.

Starting in 1914, s.24 of Chapter 261 of the Revised Statutes of Ontario, entitled “Interment of the Dead”, provided as follows:

“24. Where the owner of a cemetery cannot be found or is unknown, or is unable to maintain it, the council of the local municipality in which the cemetery is situate may undertake the duty of maintaining it, and where a council so undertakes the corporation shall for the purposes of this Act be deemed to be the owner of the cemetery.”

By 1927, in the successor provisions to s. 24 (s.36(1) of The Cemetery Act) the duty to maintain such cemeteries had become mandatory:
“36(1) Where the owner of a cemetery cannot be found or is unknown or is unable to maintain it, the council of the local municipality in which the cemetery is situate shall be charged with the duty of maintaining it and the corporation of the local municipality shall for the purposes of this Act be deemed to be owner of the cemetery.”

This deeming provision then remained unchanged until 1990 when the Cemeteries Act (Revised), c.C.4, R.S.O. 1990 was enacted. Under this legislation, the City became the owner of cemeteries without the requirement for any “paper trail”, such as registering documents or enacting by-laws. For a few of these cemeteries, transfers were registered and/or assumption or operating by-laws enacted even though they were not required. The result is that there are no records that transfer has ever been registered for 28 cemeteries currently being maintained by the City of Hamilton. When necessary, the City of Hamilton can demonstrate its ownership by pointing to the deeming provision, any assumption or operating by-laws and, for all 28 cemeteries, by means of an affidavit or statutory declaration showing that it has maintained a cemetery over time; managing its upkeep and meeting the requirements of the Cemeteries Act (Revised) and its predecessors. Ownership under the deeming provision is only “for the purposes of the Act” (currently the Cemeteries Act (Revised) or any successor Act).

In Sections 59 and 60 of the new Cemeteries Act (Revised) the City can no longer become an owner of a cemetery without being the registered owner even though the City is responsible for maintenance. Section 59 allows a municipality to order an owner who does not maintain a cemetery to restore it. The municipality may do the work and recover the costs from the owner if the owner fails to comply with the order without assuming ownership itself. Section 60 allows the owner, the municipality or the Registrar to make an application to the District Court to have a cemetery declared abandoned. When the declaration is made, it can be registered in the appropriate land registry office and the municipality becomes the registered owner.

Registering the City of Hamilton as the owner of the cemeteries can become necessary for legal reasons, for example to facilitate real estate transactions such as easements involving a cemetery or third party sales.

**ALTERNATIVES FOR CONSIDERATION**

**Harmonized Cemeteries By-law:**

Should Council elect to not approve the harmonization of the Hamilton Municipal Cemeteries By-law, the management, operation and maintenance of Hamilton’s 67 cemeteries would continue to be governed by the existing six by-laws of the former municipalities. To ensure consistency with the new Funeral, Burial and Cremation Services Act, 2002 and its regulations, some of the policies, procedures and standards in the existing by-laws would require updating due to the changes to legislation to accurately reflect statutory authority and to ensure consistency with the new Act. Changes would be required to all six (6) by-laws of the former municipality. A
harmonized by-law provides a streamlined approach to administering the legislation and regulations.

**Ownership of City of Hamilton Cemeteries:**
Should Council elect to not approve the proposal to transfer ownership of the 28 cemeteries, the City of Hamilton could continue to rely on current provisions in legislation that is sufficient for normal day-to-day operations of the cemetery. The City could counter any challenge to its ownership by means of an affidavit or statutory declaration. However registering the City of Hamilton as the owner of the cemeteries does become necessary for legal reasons under some circumstances.
