

# JAMES STREET SOUTH MURAL PUBLIC ART COMPETITION

## Artist's Concept Statement

Alluding to the Niagara Escarpment, local materials, flora, and architecture, this speculative landscape imagines Hamilton, in a mysterious state of past, present, and future. The use of natural light in the scene establishes an eternal spring - breathing levity and a sense of newness to the surroundings. The constructed urban sphere, and natural environment fuse, inviting the viewer to redefine time, and the purpose of space. This work explores themes of population growth, environmental change, lifecycles, and empathy to the public sphere.

HIDDEN TIME is a unique artwork, procedurally generated in 3D software.

## Artist's Proposal

**Alex McLeod**
